Mathematical Analysis Fundamentals

Description: The author's goal is a rigorous presentation of the fundamentals of analysis, starting from elementary level and moving to the advanced coursework. The curriculum of all mathematics (pure or applied) and physics programs include a compulsory course in mathematical analysis. This book will serve as can serve a main textbook of such (one semester) courses. The book can also serve as additional reading for such courses as real analysis, functional analysis, harmonic analysis etc. For non-math major students requiring math beyond calculus, this is a more friendly approach than many math-centric options.

- Friendly and well-rounded presentation of pre-analysis topics such as sets, proof techniques and systems of numbers.

Deeper discussion of the basic concept of convergence for the system of real numbers, pointing out its specific features, and for metric spaces

Presentation of Riemann integration and its place in the whole integration theory for single variable, including the Kurzweil-Henstock integration

Elements of multiplicative calculus aiming to demonstrate the non-absoluteness of Newtonian calculus.

Contents:
- Sets and Proofs
- Numbers
- Convergence
- Point Set Topology
- Continuity
- The Space
- Differentiation
- Bounded Variation
- Reimann Integration
- Generalizations of Reimann Integration
- Transcendental Functions
- Fourier Series and Integers

Ordering:
Order Online - [http://www.researchandmarkets.com/reports/2784409/](http://www.researchandmarkets.com/reports/2784409/)

Order by Fax - using the form below

Order by Post - print the order form below and send to

Research and Markets,
Guinness Centre,
Taylors Lane,
Dublin 8,
Ireland.
Fax Order Form
To place an order via fax simply print this form, fill in the information below and fax the completed form to 646-607-1907 (from USA) or +353-1-481-1716 (from Rest of World). If you have any questions please visit http://www.researchandmarkets.com/contact/

Order Information
Please verify that the product information is correct.

Product Name: Mathematical Analysis Fundamentals
Web Address: http://www.researchandmarkets.com/reports/2784409/
Office Code: SCPL901O

Product Format
Please select the product format and quantity you require:

<table>
<thead>
<tr>
<th>Quantity</th>

Payment Information

Please indicate the payment method you would like to use by selecting the appropriate box.

☐ Pay by credit card: You will receive an email with a link to a secure webpage to enter your credit card details.

☐ Pay by check: Please post the check, accompanied by this form, to:

Research and Markets,
Guinness Center,
Taylors Lane,
Dublin 8,
Ireland.

☐ Pay by wire transfer: Please transfer funds to:

Account number 833 130 83
Sort code 98-53-30
Swift code ULSBIE2D
IBAN number IE78ULSB98533083313083
Bank Address Ulster Bank,
27-35 Main Street,
Blackrock,
Co. Dublin,
Ireland.
