Postharvest Biology and Technology of Tropical and Subtropical Fruits

Description: While products such as bananas, pineapples, kiwifruit and citrus have long been available to consumers in temperate zones, new fruits such as lychee, longan, carambola, and mangosteen are now also entering the market. Confirmation of the health benefits of tropical and subtropical fruit may also promote consumption further. Tropical and subtropical fruits are particularly vulnerable to postharvest losses, and are also transported long distances for sale. Therefore maximising their quality postharvest is essential and there have been many recent advances in this area. Many tropical fruits are processed further into purees, juices and other value-added products, so quality optimization of processed products is also important. These books cover current state-of-the-art and emerging post-harvest and processing technologies. Volume 1 contains chapters on particular production stages and issues, whereas Volumes 2, 3 and 4 contain chapters focused on particular fruit.

- An essential reference for professionals involved in the postharvest handling and processing of tropical and subtropical fruits and for academics and researchers working in the area
- Focuses on fundamental issues of fruit physiology, quality, safety and handling relevant to all those in the tropical and subtropical fruits supply chain
- Chapters include nutritional and health benefits, preharvest factors, food safety, and biotechnology and molecular biology

Contents:

Introduction
Collection of references as raw material
Materials you need
Differences between textile and other designs
Percentage of cover area in design
Elements of textile design
Methods of reproduction of designs and concept of repeat
Preparation of motifs for designs
Designs for borders
Basic compositions for allover designs
One more method of transferring the motif on repeat
Allover designs
More diagrams for allover designs
The colour wheel
Colour wheel in action
Backgrounds
Halfdrops
Step down repeats
Discharge prints. End products: Dress materials
Neck-Tie
Handkerchiefs
Dress materials
Indian Saree
Tee-shirts
Towels and napkins
Socks
Cushion cover and pillow case
Table cloth and table cover
Bed sheet and bed spread
Umbrella
Tote bags
Tapestries, curtains, furnishing fabrics, wall hangings etc
Carpets
Floor mats
Cross-stitch and embroidery
Lace designs. Other similar products: Linoleum
Wall papers
Wrapping material and end paper for book binding
Lapmates, placemats and doormats
Computer aided designs.
