Prosperity in The Age of Decline. How to Lead Your Business and Preserve Wealth Through the Coming Business Cycles

Description: Protect your wealth in an age of turbulent business cycles

From Brian and Alan Beaulieu, the CEO and President of ITR Economics (ITR) comes Prosperity in the Age of Decline, the must-have resource for thriving in uncertain economic times. ITR has mastered long-term economic trend forecasting, with an astounding 94.7% accuracy rate over the course of six and a half decades.

Prosperity in the Age of Decline draws on the authors' proven expertise to provide business leaders and investors with accurate forecasts of how the economy will perform under forthcoming economic conditions. This important resource gives investors the information and strategies they need to make informed decisions and proactively plan in order to thrive before, during, and after the upcoming economic downturn.

The book reveals how individual investors and business leaders can avoid common pitfalls while capitalizing on targeted economic trends in order to create a solid economic future. Prosperity in the Age of Decline includes the critical information that investors need to determine the direction of the economy, and offers advice for following both leading and lesser indicators that gives a complete and unassailable view of what lies ahead so investors can take action with conviction.

Using Prosperity in the Age of Decline as a well-researched guide, investors will know where the economy is headed and have an understanding how their investments will be affected in order to substantially reduce uncertainty and significantly increase their competitive advantage.
