Europe: Biopesticides Market 2013

Description: The European biopesticides market will be $890m by 2014 after a decade of 16% CAGR; sales already exceed 5% of the total pesticide market. This is phenomenal growth after decades of development.

This study analyses and projects the markets for biopesticides for 33 European countries including Germany, France, Italy, Spain and the UK. Key developments and trends in pesticides and biopesticides are described, trends evaluated and companies profiled.

These studies use primary data obtained from those working in the sector combined with information from our database, other studies and the public domain. These combined data are analysed to provide insight and guidance for companies interested in making and selling biopesticides.

Contents:
SUMMARY
THE EUROPEAN PESTICIDE MARKET
KEY CROPS
MARKET TRENDS
