Neurobiology of Language

Description: Neurobiology of Language explores the study of language, a field that has seen tremendous progress in the last two decades. Key to this progress is the accelerating trend toward integration of neurobiological approaches with the more established understanding of language within cognitive psychology, computer science, and linguistics.

This volume serves as the definitive reference on the neurobiology of language, bringing these various advances together into a single volume of 100 concise entries. The organization includes sections on the field's major subfields, with each section covering both empirical data and theoretical perspectives. "Foundational" neurobiological coverage is also provided, including neuroanatomy, neurophysiology, genetics, linguistic, and psycholinguistic data, and models.

- Foundational reference for the current state of the field of the neurobiology of language
- Enables brain and language researchers and students to remain up-to-date in this fast-moving field that crosses many disciplinary and subdisciplinary boundaries
- Provides an accessible entry point for other scientists interested in the area, but not actively working in it - e.g., speech therapists, neurologists, and cognitive psychologists
- Chapters authored by world leaders in the field - the broadest, most expert coverage available

Contents:

- Neurobiological Foundations
- Behavioral Foundations
- Large-Scale Models
- Development, Learning, and Plasticity
- Perceptual Analysis of the Speech Signal
- Word Processing
- Sentence Processing
- Discourse Processing and Pragmatics
- Speaking
- Conceptual Semantic Knowledge
- Written Language
- Animal Models for Language
- Memory for Language
- Language Breakdown
- Language Treatment
- Prosody, Tone, and Music

Ordering:

Order Online - http://www.researchandmarkets.com/reports/2857147/

Order by Fax - using the form below

Order by Post - print the order form below and send to

Research and Markets,
Guinness Centre,
Taylors Lane,
Dublin 8,
Ireland.
Fax Order Form
To place an order via fax simply print this form, fill in the information below and fax the completed form to 646-607-1907 (from USA) or +353-1-481-1716 (from Rest of World). If you have any questions please visit http://www.researchandmarkets.com/contact/
