
Description: Vaccines have been one of the faster growing areas of the pharmaceutical industry, and during a troubling series of years, they have been the superstars of many companies’ portfolios. They’ve also attracted the attention of insurance companies, retail outlets and the media. The global market for vaccines experienced strong growth through 2009 and this is expected to continue through the forecast period. Growth is being fueled by new product introductions and rising usage in all regions.

Kalorama Information has been closely following vaccine markets and since 2006 has instituted a yearly market research report schedule to keep up with fast-moving developments. Our latest comprehensive update, Vaccines 2010: World Market Analysis, Key Players, and Critical Trends in a Fast-Changing Industry, examines the market for vaccines used in humans for various disease. This state-of-the-industry report is a must-have for any executive who wants to stay on top of a rapidly changing market and see what’s expected down the road. You can count on the objectivity and accuracy of our numbers and analysis—whether you’re preparing a strategic presentation, benchmarking your company’s performance against the competition, preparing a new product launch or seeking out an acquisition or a new partnership.

The report covers only commercialized vaccines and developmental vaccines for diseases that are already vaccine-preventable; it does not cover emerging vaccines for diseases that are not currently vaccine-preventable.

Included in this report are current market size and forecast for the following vaccines:

Pediatric Vaccines:
- Combinations
- Hepatitis
- HIB
- MMR
- Pneumococcal
- Poliovirus
- Varicella
- Other Pediatric

Adult Vaccines:
- Cervical Cancer
- Hepatitis
- Influenza
- Pneumococcal
- Travel; DT; Misc.

Important trends such as vaccine safety, vaccine shortages, preventing pandemics, vaccines and bioterrorism, DNA vaccination, innovations in vaccine delivery systems and innovations in vaccine Production are covered in the report. In addition, the report profiles key competitors in the vaccine industry. Companies profiled in the report include:

- AlphaVax, Inc.
- Bavarian Nordic A/S
- Baxter Healthcare
- Bharat Biotech
- Celldex Therapeutics
- Crucell
- Emergent biosolutions
- GlaxoSmithKline
- Medimmune
- Merck & Co. Inc
Nabi Biopharmaceuticals
Novartis
Pfizer
Sanofi Pasteur

Sales estimates for each market segment represent global revenues and are expressed in current dollars. Estimates are provided for the historic 2005 to 2009 period and forecasts are provided through 2014. Historical information for this report was gathered from a wide variety of published sources including company reports and filings, government documents, legal filings, trade journals, newspapers and business press, analysts’ reports and other sources. Interviews with company representatives and other experts were conducted to capture the perspectives from industry participants’ point of view and assess trends, and form the basis of the forecasting and competitive analysis.
