CHINA MERCHANTS ENERGY SHIPPING Co. Ltd. Credit Report

Description: China has the largest manufacturing economy in the world, and is the planet's largest exporter and second-largest importer of goods. Their economy is the second-largest in the world – in terms of nominal GDP and purchasing-power parity – and it is the fastest-growing major economy in the world. In other words, you're likely to be doing business there soon, and we'd like to help.

Credit reports are offered on hundreds of Chinese companies, based on official sources like the government's Business Register, as well as the national Tax Office, Customs, Office of Surveillance, Banks and other official institutions in China. Each credit report contains an interpretation of the data from industry experts, along with commentary.

The types of information shown here will be useful to anyone considering a business deal with a Chinese company, and who wants comprehensive information about a prospective partner. The data would also be valuable to anyone who would be involved in a legal dispute in China, or with a Chinese company.

Perhaps you want to search for a supplier in China, but need to know if the company merely manufactures products or is licensed to trade. Perhaps you want to export your products to this company, or perhaps you plan to buy from them. In any of these cases, this credit report could be useful to you.
