Global light vehicle OE batteries market - forecasts to 2031

Description:
This latest report edition offers a global review of the OE batteries sector, its suppliers, top markets, technologies and market forecasts.

This global market study offers:
- Automotive OE batteries market size estimates
- Latest technologies and trends
- Market share data tables
- Exclusive interviews with major companies
- Profiles of the major players including their strategies and prospects
- Market size forecasts

You can use this report to:
- Understand the scope and scale of the major markets
- Get an overview of the global automotive batteries sector
- Identify opportunities and threats
- Prepare demand and supply forecasts
- Review the latest technological drivers
- Know the key trends within the sector and what's driving them
- Get up to speed with latest company activities and prospects
- Hear direct from major companies on strategies and plans
- Carry out competitive analysis

Contents:
- Introduction
- Pester analysis
- Companies
  - A123 Systems, Inc.
  - Advanced Battery Technologies
  - Banner
  - BYD Auto
  - China BAK Battery Inc
  - Continental AG
  - East Penn Manufacturing Co Inc
  - Enerdel
  - EnerSys
  - Exide Technologies
  - Fiamm
  - GS Yuasa Corp
  - Hitachi Vehicle Energy Ltd
  - Johnson Controls Inc.
  - Johnson Controls-Saft
  - Customers and contracts
  - Disbanded
  - Infrastructure
  - Power Solutions
  - Customers and contracts
  - Infrastructure
  - Merger and acquisition activity
  - Products
  - Johnson Matthey Battery Systems
  - LG Chem
  - Li-Tec
  - Primearth EV Energy Co Ltd
- Robert Bosch GmbH
- Samsung SDI
- SB LiMotive
- Toshiba
- Western Lithium
- Others
- 3M Automotive
- ACDelco
- Altair Nanotechnologies
- Asahi Glass Co Ltd
- BASF SE
- Boston Power Inc
- Central Glass
- CS Energy Materials
- Dana
- Dow Kokam
- Ficosa
- Firefly Energy
- Freescale Semiconductor
- Furukawa Battery
- General Motors
- Gentherm
- Hella KGaA Hueck & Co.
- Lifan
- Magna International Inc.
- Magneti Marelli S.p.A.
- Maxwell Technologies
- Oak Ridge National Laboratory
- Panasonic Corporation
- Shandong Aforever New Energy Science and Technology
- Shin-Kobe Electric Machinery
- Solvay
- Umicore
- Forecasts
- Advanced automotive batteries
- Starter batteries
- Glossary of terms
- Markets
- Emerging markets
- Market shares
- Asia-Pacific
- Europe
- North America
- Market trends
- Technologies
- Advanced automotive battery innovations
- Alliances
- Battery costs
- Innovations
- Delphi’s inverter
- Denso’s lithium-ion battery pack for stop/start systems
- GS Yuasa’s advanced batteries for next-generation PHEVs
- JCI’s 48-volt micro hybrid battery
- JCI’s ie:3 demonstrator vehicle
- Volvo’s solution
- Where are we heading?
- SAE standard for PHEVs and EVs to help reduce charging time
- Electric vehicle battery developments
- Alcoa and Phinergy’s solution adopted by Renault?
- Charging solutions
- EV sound research
- Delphi’s vehicle sounder
- Kia EV sounds like an ICE
- NHTSA's proposal
- Pedestrian alert technology for electric vehicles
- Volvo's research
- Evida supplies batteries for Mia Electric
- Ford's battery lab
- Massachusetts Institute of Technology developing an alternative battery
- Range anxieties
- Sensor for EVs which shuts off the battery in the event of a collision
- Solutions to convert EV battery power for home use
- Toshiba supplies batteries for Mitsubishi Motors
- Valeo's thermal management for lithium-ion batteries
- Other innovations
- Evida Power and HaloIPT explores wireless charging
- Federal-Mogul's battery shield
- GS Yuasa's battery analyser
- Hella's isolation monitor
- Material for a secondary or rechargeable battery
- Visteon's battery thermal management solutions
- Yazaki North America partners with Evatran to develop charging systems
- Recycling
- Archive
- An alternative technology to lithium-ion?
- BMW
- Daimler working with Evonik Industries to develop and produce lithium-ion batteries
- Dana's battery cooling technologies
- EASYBAT aims to make it easier to build electric cars with switchable batteries
- Envia achieves record energy density for its Li-ion battery
- EV battery prices fall
- EV makers to produce 35GW hours of batteries by 2013
- Exide Technologies uses public funds to develop lead-acid battery technology
- GM Europe Ampera electric car
- GM increases its investment in lithium-ion batteries
- GM investigates material to make lithium-ion batteries last longer between charges
- GM Ventures invests in Sakti3
- Harman's sound synthesis
- Hyundai offers lifetime battery replacement for the Sonata Hybrid
- JCI's batteries for commercial vehicles
- Johnson Controls and Hitachi cooperate
- Johnson Controls supplying the battery for the Ford Transit Connect Electric
- Johnson Controls uses public funds to develop advanced battery technologies
- Li-ion batteries for F1
- New battery monitoring unit for Lithium-ion batteries from Denso
- Nissan, NEC and NEC Tokin form joint venture to produce lithium-ion batteries in Japan
- Renault delays electric vehicle battery production
- SB LiMotive acquires Cobasys
- Solar technology for EVs
- The National Alliance for Advanced Transportation Batteries (NAATBatt) is formed
- Toyota explores wireless charging
- Washington State University's research

List of tables

- Asia-Pacific manufacturer market shares of OE automotive lead-acid starter batteries for passenger cars and light vehicles, 2010-2014, % of sales volume
- European manufacturer market shares of OE and aftermarket for automotive lead-acid starter batteries for passenger cars and light vehicles, 2010-2014, % of sales volume
- Exide Technologies' transportation battery manufacturing plants and offices worldwide, 2013
- Fiamm SpA's starter battery operations, 2013
- French independent aftermarket manufacturer market shares for automotive lead-acid starter batteries for passenger cars and light vehicles, 2010-2014, % of sales volume
- German independent aftermarket manufacturer market shares for automotive lead-acid starter batteries for passenger cars and light vehicles, 2010-2014, % of sales volume
- Global manufacturer market shares of OE and aftermarket for automotive lead-acid starter batteries for
passenger cars and light vehicles, 2010-2014, % of sales volume
- Johnson Controls' Power Solutions' plants and distribution centres worldwide, 2013
- Market fitment/penetration rates of advanced automotive batteries fitted to newly-assembled passenger cars and light vehicles, 2010-2030, (%)
- Market volumes of advanced automotive batteries fitted to newly-assembled passenger cars and light vehicles, 2010-2030, ('000s units)
- Market volumes of lead-acid starter batteries fitted to newly-assembled passenger cars and light vehicles, 2010-2030, ('000s units)
- North American manufacturer market shares of OE automotive lead-acid starter batteries for passenger cars and light vehicles, 2010-2014, % of sales volume
- Relative market sizes of lead-acid starter batteries fitted to newly-assembled passenger cars and light vehicles, 2010-2030, (% share)
- UK independent aftermarket manufacturer market shares for automotive lead-acid starter batteries for passenger cars and light vehicles, 2010-2014, % of sales volume

Order by Fax - using the form below

Order by Post - print the order form below and send to

Research and Markets,
Guinness Centre,
Taylors Lane,
Dublin 8,
Ireland.
Fax Order Form
To place an order via fax simply print this form, fill in the information below and fax the completed form to 646-607-1907 (from USA) or +353-1-481-1716 (from Rest of World). If you have any questions please visit http://www.researchandmarkets.com/contact/

Order Information
Please verify that the product information is correct and select the format(s) you require.

Product Name: Global light vehicle OE batteries market - forecasts to 2031
Web Address: http://www.researchandmarkets.com/reports/2886431/
Office Code: SCH34L19

Product Formats

Payment Information

Please indicate the payment method you would like to use by selecting the appropriate box.

☐ Pay by credit card: You will receive an email with a link to a secure webpage to enter your credit card details.

☐ Pay by check: Please post the check, accompanied by this form, to:
Research and Markets,
Guinness Center,
Taylors Lane,
Dublin 8,
Ireland.

☐ Pay by wire transfer: Please transfer funds to:

- Account number: 833 130 83
- Sort code: 98-53-30
- Swift code: ULSBIE2D
- IBAN number: IE78ULSB98533083313083
- Bank Address: Ulster Bank,
  27-35 Main Street,
  Blackrock,
  Co. Dublin,
  Ireland.
