Savory Ingredients Market by Ingredients, by Application & by Geography - Global Trends & Forecasts to 2019

Description:

Savory Ingredients Market by Ingredients (Yeast Extracts, HVP, HAP, MSG, Nucleotides and Others), by Application (Food Industry, Pet Food and Others) & by Geography - Global Trends & Forecasts to 2019

The major savory flavor ingredients used globally include: yeast extract, hydrolyzed vegetable protein, hydrolyzed animal protein, monosodium glutamate, and ribonucleotides (disodium S'-guanylate and disodium S'-inosinate). The latter are particularly effective when used in combination with other savory flavor ingredients. Ribonucleotides boost the effectiveness of other savory flavor ingredients.

The North American and European savory ingredients markets have been quite stable in the past few years, due to increased consumer awareness related to the ill effects of savory ingredients. Consumers presume that savory ingredients are artificial chemicals added to enhance flavors which are very unhealthy. The developing countries in the Asia-Pacific region have very low consumer awareness with regard to savory ingredients due to which there is a lot of untapped potential for savory ingredients in the region.

The main market for hydrolyzed animal proteins is the pet food industry. Monosodium glutamate holds the majority of market share in the savory ingredients market. Monosodium glutamate is getting replaced by yeast extracts due to increasing demand for natural ingredients and health concerns. In general, yeast extract has a good image and is the preferred choice for clean-label products. The Asia-Pacific region is the largest market for savory ingredients and also the fastest-growing market with India and China dominating the region. Asia-Pacific's savory ingredients market is projected to grow at a CAGR of 6.4% from 2014 to 2019.

The market is dominated by a few large players and comprises many small- and medium-scale players. The key players identified in the savory ingredients industry are Ajinomoto (Japan), Givaudan (Switzerland), Angel Yeast (China), DSM (The Netherlands), and Sensient (Wisconsin).

The segments of the savory ingredients market considered for this study include ingredient types, applications, and geography. All the growth parameters in individual segments have been considered in this report. The food industry's savory ingredients market is the fastest-growing application at a CAGR of 6.6% from 2014 to 2019.
