Analyzing the Global Market for Active Pharmaceutical Ingredients - 2014

Description: The global market for active pharmaceutical ingredients has been growing steadily in recent years. However, the recent economic recession slowed down the growth of the industry as investments made by the major players went down significantly. Furthermore with a large number of blockbuster drugs going off patent by the end of 2014, there is expected to be a major impact on the global API industry. Revenues of the API markets are likely to be affected as generic drugs take up the market.

The United States remains one of the biggest players in the market, followed closely by China and India. Synthetic pharmaceuticals also continue to dominate the API industry as biotech APIs move up slowly. Major companies such as Teva, Dr Reddy's and Boehringer Ingelheim continue to invest heavily in the API industry and remain the leading players in the global active pharmaceutical ingredient market.

This research analyzes the global API industry in its research report Analyzing the Global Market for Active Pharmaceutical Ingredients. The report begins with an introduction to active pharmaceutical ingredients (APIs). An analysis of the global market for APIs includes an industry overview, industry revenues, industry segmentation by the biotech API market and the Synthetic API market and a profile of the High Potency Active Pharmaceutical Ingredient (HPAPI) Market. We also analyze some of the major impacts on the global API market such as the ongoing and upcoming patent expires of blockbuster drugs and the impact of the economic recession on the market.

An analysis of the market for APIs in Asia Pacific is carried out through an industry overview, analysis of industry revenues and industry segmentation, the therapeutic applications of APIs in Asia Pacific and the impacts on the industry. Key markets analyzed in Asia Pacific include China, India, Japan and South Korea.

An analysis of the market for APIs in Europe is carried out through an industry overview, analysis of industry revenues and industry segmentation, the therapeutic applications of APIs in Europe and the impacts on the industry. Key markets analyzed in Europe include France, Germany, Italy, Spain and the United Kingdom.

An analysis of the market for APIs in North America is carried out through an industry overview, analysis of industry revenues and industry segmentation, the therapeutic applications of APIs in North America and the impacts on the industry. Key markets analyzed in North America include Canada and the United States.

An analysis of the major industry players such as Teva, Albemarle, Actavis, Boehringer, Cipla and others is carried out through an analysis of their business profile, major products & services, financial analysis and a SWOT analysis. This in-depth report on the global market for Active Pharmaceutical Ingredients is a comprehensive profile of this industry.

Contents:

A. Executive Summary
B. Introduction to Active Pharmaceutical Ingredients
C. Global Market for Active Pharmaceutical Ingredients (APIs)
   C.1 Industry Overview
   C.2 Industry Revenues
   C.3 Industry Segmentation
      C.3.1 Biotech API Market
      C.3.2 Synthetic API Market
   C.4 Brief Profile: High Potency Active Pharmaceutical Ingredients (HPAPIs)
D. Impacts on the Global API Market
   D.1 Impact of the Economic Recession
   D.2 Impact of Patent Expiries & Growing Uptake of Biologics
   D.3 Increased Price Competition & Price Cuts by Governments
   D.4 Growing Number of Mergers & Acquisitions & Increased Global Coverage
   D.5 Regulatory Framework
