Highlights

Gigasolar Materials Corporation (Giga Solar) is a producer of solar conductive pastes. The company focuses on developing a complete range of solar paste material for PV application. The company's product line includes silver conductive paste, aluminium conductive paste and silver aluminium conductive paste. Its silver paste finds applications in producing cell electrodes; and aluminium paste sintered after printing the backside silver electrode on the silicon wafer board. It is the subsidiary of Gigastorage Corp. a professional optical storage media manufacturer. Giga Solar is headquartered in Hsinchu, Taiwan.

The company intends to guide potential domestic material manufacturers to work with solar cell systems manufacturers for developing application technologies, and assist in importing or investing the related important technologies such as silicon, silver paste, aluminum paste, low-iron glass.

Gigasolar Materials Corporation Key Recent Developments

Aug 30, 2013: Gigasolar to build 17MW solar power system in Fukushima Prefecture, Japan

Key benefits of buying this profile include:

- You get detailed information about the company and its operations to identify potential customers and suppliers.
- The profile analyzes the company's business structure, operations, major products and services, prospects, locations and subsidiaries, key executives and their biographies and key competitors.

Understand and respond to your competitors' business structure and strategies, and capitalize on their weaknesses. Stay up to date on the major developments affecting the company.
- The company's core strengths and weaknesses and areas of development or decline are analyzed and presented in the profile objectively. Recent developments in the company covered in the profile help you track important events.
Equip yourself with information that enables you to sharpen your strategies and transform your operations profitably.
- Opportunities that the company can explore and exploit are sized up and its growth potential assessed in the profile. Competitive and/or technological threats are highlighted.

Scout for potential investments and acquisition targets, with detailed insight into the companies' strategic, financial and operational performance.
- Financial ratio presented for major public companies in the profile include the revenue trends, profitability, growth, margins and returns, liquidity and leverage, financial position and efficiency ratios.

Gain key insights into the company for academic or business research.
- Key elements such as SWOT analysis, corporate strategy and financial ratios and charts are incorporated in the profile to assist your academic or business research needs.
