Nigeria's Socioeconomic and Demographic Performance: Past, Present and Future

Description: This document provides an in-depth look at Nigeria, and the basis for the analysis is largely the publisher's own Global Income Distribution Database (C-GIDD). C-GIDD is the world's most comprehensive and detailed database for GDP and income distribution data. The dataset covers 212 countries, 694 subdivisions (states, provinces, etc.) and 1,028 major cities from 1999 till 2019.

We examine GDP, GDP per capita, household income, income per capita, population, urbanization and socioeconomic class levels, both at the national and sub-national / city level. The analyses cover historical trends as well as future projections (5-20 years). Additionally, we provide useful comparisons to other countries and cities of Africa.

Contents:
- Overview of the Canback Income Distribution Database (C-GIDD)
- The themes and key findings of the report
- Population and GDP (USD and purchasing power parity, 2014) and comparison to other African countries
