Matlab® in Quality Assurance Sciences

Description: MATLAB® in Quality Assurance Sciences fills a gap in the highly topical field of quality assurance (QA). It is a compact guide for students, engineers, and scientists in this field. It concentrates on MATLAB® fundamentals with examples of application to a wide range of current problems from general, nano and bio-technology, and statistical control, to medicine and industrial management. Examples cover both the school and advanced level; comprising calculations of total quality management, six sigma, time series, process improvement, metrology, quality control, human factors in quality assurance, measurement and testing techniques, quality project and function management, and customer satisfaction.

This book covers key topics, including: the basics of software with examples; graphics and representations; numerical computation, scripts and functions for QA calculations; ODE and PDEPE solvers applied to QA problems; curve fitting and time series tool interfaces in calculations of quality; and statistics calculations applied to quality testing.

- Includes MATLAB® fundamentals, matrices, arrays, general graphics and specialized plots in quality assurance problems, script files, ordinary and partial differential equations
- Gives calculation of six sigma, total quality management, time series forecasting, reliability, process improvement, metrology, quality control and assurance, measurement and testing techniques
- Provides tools for graphical presentation, basic and special statistics and testing, ordinary and partial differential solvers, and fitting tools

Contents:

Dedication
List of figures and tables
Preface
About the author
1: Introduction
Abstract
MATLAB® and other software
The purpose and principal audience for this book
About the topics
About chapter design and questions for self-checking
The MATLAB® versions
Order of presentation
2: Basics
Abstract
2.1 Starting with MATLAB® software
2.2 Vectors, matrices, and arrays
2.3 Flow control
2.4 Questions for self-checking
2.5 Answers to selected questions
3: MATLAB® graphics
Abstract
3.1 Generation of XY plots
3.2 Generation of XYZ plots
3.3 Specialized two- and three-dimensional plots
3.4 Application examples
3.5 Questions for self-checking
3.6 Answers to selected questions
4: Commands for probability distributions, random numbers, and special graphs
Abstract
4.1 Density, cumulative, and inverse cumulative functions for probability distributions
4.2 Command for random number generation
4.3 Supplementary commands for random numbers and probability distributions
4.4 Application examples
4.5 Specialized commands for graphical representation
Fax Order Form
To place an order via fax simply print this form, fill in the information below and fax the completed form to 646-607-1907 (from USA) or +353-1-481-1716 (from Rest of World). If you have any questions please visit http://www.researchandmarkets.com/contact/

Order Information
Please verify that the product information is correct.

Product Name: Matlab® in Quality Assurance Sciences
Web Address: http://www.researchandmarkets.com/reports/2986230/
Office Code: SCDKT4L9

Product Format
Please select the product format and quantity you require:

| Quantity | Hard Copy (Hard Back): USD 167 + USD 29 Shipping/Handling |

* Shipping/Handling is only charged once per order.

Payment Information

Please indicate the payment method you would like to use by selecting the appropriate box.

☐ Pay by credit card: You will receive an email with a link to a secure webpage to enter your credit card details.

☐ Pay by check: Please post the check, accompanied by this form, to:
Research and Markets,
Guinness Center,
Taylors Lane,
Dublin 8,
Ireland.

☐ Pay by wire transfer: Please transfer funds to:
Account number 833 130 83
Sort code 98-53-30
Swift code ULSBIE2D
IBAN number IE78ULSB98533083313083
Bank Address Ulster Bank,
27-35 Main Street,
Blackrock,
Co. Dublin,
Ireland.
