Global Body Armor Market 2014-2018

Description:

About Body Armor

A body armor also known as personal armor is used as a protecting clothing and is designed to absorb or deflect slashing, bludgeon, and penetrate attacks. Earlier it was used only by soldiers, but nowadays it is increasingly used by police, security guards, and individuals for protection from attacks. There are two types of body armor: soft body armor and hard body armor. Body armor is rated in terms of its competency to stop bullets. There are two recognized standards: the international standard set down by the National Institute of Justice and the UK standards regulated by the Home Office Scientific Development Branch.

The analysts forecast the Global Body Armor market to grow at a CAGR of 5.03 percent over the period 2013-2018.
