The Competitive Environment is analysed in Product, Market, Competitive, Operational, and Consumer terms. The Competitive Environment for the Target Retailer consists of some 170 issues which have been investigated through Surveys of the Staff of the Target Retailer, the Customers, the Competitive companies, Trade Suppliers, Logistics companies, Trade Buyers & Decision Makers, Trade & Industry Experts, Banks & Financial Institutions, the Regulatory Authorities, and other sources.  

3. Market Research  
The market research is Country specific, and provides data on all the Cities and Towns in the home country
of the Target Retailer.

The report provides historic, current and forecast Market data, Financial data for the retailers, Industry data for the trade, Survey data, and a large body of market research for each of the Cities and major towns.

World Market Research data (on potential overseas expansion opportunities for the Target Retailer) is available as part of the After-Sales Service.

4. Business Planning

This section provided Business Planning software and utilities.

To make the data handling easier, the documents and databases are also supplied on DVD or Hard Disk Drive which can then be used as a standalone data source or, if required, manipulated and correlated with business planning or statistical software.

The breakdowns of Product Groups, Trading Areas, Competitors, Retail Operations, and Customer / Buyer Profiles are limited to 15 in each group because the Excel spreadsheets frequently analyse the correlation of data between 2 groups of 15. Because of the general limitation of record field numbers (generally 255 fields) one can only produce a 15 x 15 matrix.
