Global Intracranial Stents Market 2014-2018

Description: About Intracranial Stents

Intracranial stents are stainless steel mesh-like tubes with anatomic features to achieve a perfect combination of radial strength and flexibility. Intracranial stents are used in the treatments of cerebral aneurysms, intracranial aneurysms, and intracranial atherosclerosis that cause about eight percent of all ischemic strokes. Aneurysm is a condition in which the artery widens and becomes weaker than a normal artery wall. Aneurysm is the result of high blood pressure and other factors such as aging, smoking, intracranial hypertension, and cerebrovascular complications. A type of aneurysm involving cerebral artery is called cerebral aneurysm or intracranial aneurysm. Intracranial stents help in strengthening the weakened artery, allowing smooth blood flow, without causing any effect to the bulge. These stents are used to treat cerebral-related strokes.

The analysts forecast the Global Intracranial Stents market to grow at a CAGR of 18.75 percent over the period 2013-2018.

Covered in this Report

This report covers the present scenario and the growth prospects of the Global Intracranial Stents market for the period 2014-2018. To calculate the market size, the report considers the revenue generated from the sales of intracranial stents.

The report, Global Intracranial Stents Market 2014-2018, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the Americas, the APAC, and the EMEA regions; it also presents the vendor landscape and a corresponding detailed analysis of the top six vendors in the Global Intracranial Stents market. In addition, it discusses the major drivers that influence the growth of the market, the challenges faced by the vendors and the market at large, as well as the key trends emerging in the market.

Key Regions
- Americas
- APAC
- EMEA

Key Vendors
- Covidien
- DePuy Synthes
- Medtonic
- MicroPort Scientific
- OBEX Medical
- Stryker

Other Prominent Vendors
- Abbott Laboratories
- Admedes Schuessler
