China Lumena New Materials Corp. (67) - Company Capsule

Description: "China Lumena New Materials Corp. (67) - Company Capsule" contains in depth information and data about the company and its operations. The profile contains a company overview, key facts, major products and services, financial ratios, key competitors, financial analysis, key employees as well as company locations and subsidiaries.

Summary
This report is a crucial resource for industry executives and anyone looking to access key information about "China Lumena New Materials Corp."

The report utilizes a wide range of primary and secondary sources, which are analyzed and presented in a consistent and easily accessible format. World Market Intelligence strictly follows a standardized research methodology to ensure high levels of data quality and these characteristics guarantee a unique report.

Scope
- Identifies crucial company information about "China Lumena New Materials Corp." along with major products and services for business intelligence requirements.
- Provides key ratios on company's financial performance.
- Identifies key employees to assist with key business decisions.
- Provides annual and interim financial ratios.

Reasons To Buy
- Enhance your understanding of "China Lumena New Materials Corp."
- Increase business/sales activities by understanding customers' businesses better.
- Recognize potential partnerships and suppliers.
- Qualify prospective partners, affiliates or suppliers.
- Acquire up-to-date company information and an understanding of the company's financial health.

Key Highlights
China Lumena New Materials Corp. (Lumena) is a material manufacturing company. The company's service portfolio includes mining, processing, manufacturing, producing, developing, and selling of natural thenardite and polyphenylene sulfide products. Its thenardite product portfolio includes powder, specialty, medical, neutral, granular, extra fine, high purity, low chlorine, low calcium, magnesium, extra white, low iron content, colored, and animal feed thenardite. Lumena owns and operates four underground mines, which include Dahongshan Mining, Guangji Mining, Muma Mining, and Yuegou Mining and produces 57.2 million tonnes of thenardite deposits. The company also provides PPS resin, PPS compounds, and PPS fibre products, which are utilized in machinery, electrical, automotive, transportation, aeronautics, astronautics, and environmental protection industries. It has operations in Hong Kong and China. Lumena is headquartered in Hong Kong.
