The Global Military Radar Market 2014-2024

Description:
This report provides readers with a detailed analysis of both historic and forecast global industry values, factors influencing demand, the challenges faced by industry participants, analysis of industry leading companies, and key news.

- The global Military Radar market is expected to experience a CAGR of 1.05% during 2014-2024
- North America and Asia-Pacificare expected to be the largest Military Radar markets, with a cumulative market share of more than 72%.
- The airborne radar segment is expected to dominate the Military Radar market, with a share of 42.5%
- The market is driven by continuous improvements in Radio Frequency and Radar technology as well as ever growing need of early identification of threats in militaries globally

Synopsis:
This report offers detailed analysis of the global Military Radar market with market size forecasts covering the next 10 years. This report will also analyze factors that influence demand for Military Radar, key market trends and challenges faced by industry participants.
In particular, it provides an in-depth analysis of the following:

- Global Military Radar market size and drivers: detailed analysis of the Military Radar market during 2014–2024, including highlights of the demand drivers and growth stimulators for Military Radar. It also provides a snapshot of the spending patterns and modernization patterns of different regions around the world
- Recent developments and industry challenges: insights into technological developments in the Military Radar market and a detailed analysis of the changing preferences of the defense ministries around the world. It also provides trends of the changing industry structure and the challenges faced by industry participants
- SWOT analysis of the Military Radar market: analysis of the industry characteristics by determining the strengths, weaknesses, opportunities, and threats faced by the Military Radar industry
- Global Military Radar country analysis: analysis of the key markets in each region, providing an analysis of the key segments of the Military Radar industry expected to be in demand in each region
- Major programs: details of the key programs in each segment, which are expected to be executed during the forecast period
- Competitive landscape and strategic insights: analysis of the competitive landscape of the global Military Radar industry. It provides an overview of key players, together with insights such as key alliances, strategic initiatives, and a brief financial analysis

Reasons To Purchase:
- This report will give the user confidence to make the correct business decisions based on a detailed analysis of the Military Radar market and to identify emerging/declining markets over the next 10 years
- This report will give the user a thorough fact-based analysis with information about demand for various Military Radar segments in each of the top ten countries and the underlying factors that are driving the demand
- Analysts have placed significant emphasis on the major industries that are driving the Military Radar market, which will provide the user with a clear picture about the future opportunities that can be tapped, resulting in revenue expansion
- The major programs section will inform the user about major programs being undertaken by defense ministries and governments in different segments of the Military Radar market during the forecast period
- Detailed profiles of the top Military Radar manufacturers and service providers around the world with information about their products, alliances, recent contract wins and financial analysis wherever available. This will provide the user with a total competitive landscape of the sector
- A deep qualitative analysis of the global Military Radar sector covering sections including demand drivers, SWOT, industry trends, and latest technological developments

1 Introduction
1.1 What is this Report About?
1.2 Definitions
1.3 Summary Methodology
1.4 About the Publisher

2 Executive Summary

3 Global Military radar Market Size and Drivers
3.1 Military radar Market Size and Forecast 2014-2024
3.1.1 Global military radar market to increase during the forecast period
3.2 Global Military Radar Market - Regional Analysis
3.2.1 North America dominates the global military radar market
3.2.2 Demand for airborne and ground-based radars in the US to support the global military radar market
3.2.3 Arms race in Asia makes it a lucrative market for military radars
3.2.4 European Defense budget cuts reflected in the decline of the military radars market
3.2.5 Regional turmoil to boost the demand for military radar systems in the Middle East
3.2.6 Brazil to lead the military radar market in the Latin American region
3.2.7 African Markets expected to increase during the forecast period
3.3 Military Radar Sub-Sector Market Size Composition
3.3.1 Market growth will be driven by airborne and ground-based radars
3.3.2 Demand for airborne radar systems expected to be robust over the forecast period
3.3.3 Steady investments to drive the growth of ground-based radar system over the forecast period
3.3.4 Market for Naval radars expected to record an increase and reach US$2.6 billion by 2024
3.3.5 More countries to enter into space-based radar systems market during the forecast period
3.4 Demand Drivers and Growth Stimulators
3.4.1 Increasing use of radars on unmanned platforms
3.4.2 Active electronically scanned array (AESA) technology driving the market
3.4.3 Need to modernization of air defense networks
3.4.4 Emphasis on border and coastal surveillance programs in Latin American region
3.5 Defense Budget Spending Review
3.5.1 European capital expenditure expected to increase during the forecast period
3.5.2 Asian defense budgets expected to increase at a robust pace
3.5.3 North American defense expenditure projected to increase marginally during the forecast period
3.5.4 Modernization programs likely to drive defense expenditure in South American countries
3.5.5 Military budgets of African countries expected to increase during the forecast period
3.5.6 Middle Eastern defense budgets likely to increase during the forecast period
3.6 Defense Modernization Review
3.6.1 Financial constraints causing delays in European defense modernization programs
3.6.2 Defense budgets of Asian countries likely to be driven by competitive arms acquisitions
3.6.3 Global economic slowdown leading to defense budget cuts in the North American region
3.6.4 Need to replace aging equipment driving South American defense expenditure
3.6.5 Security threats increasing the defense budget of African countries
3.6.6 Demand for air defense systems is likely to increase in the Middle East

4 Industry Trends, Recent Developments and Challenges
4.1 Technological Developments
4.1.1 Digital beam forming radar systems to help defeat overwhelming attacks on US warships
4.1.2 Millimeter wave amplifier technology expected to revolutionize communications and radar capabilities in the US
4.1.3 Dual Band Radars
4.1.4 Beam Steering Antenna Technology
4.1.5 New radar technology that enables vision through solid walls to provide real time images beyond barriers
4.2 Market Trends
4.2.1 Significant performance improvements draws investment into AESA based platforms
4.2.2 Growing demand for passive radars providing anti-stealth defense options
4.3 Industry Consolidation
4.3.1 Joint RandD programs expected to increase over the forecast period
4.3.2 Companies are also expected to consolidate in the face of global defense budget cuts
4.4 Key Challenges
4.4.1 Space constraints in naval ships and diminishing capacity poses key challenges for military radar market
4.4.2 Wind turbines pose challenge to radar functionality

5 SWOT Analysis of the Military Radar Market
5.1 Strengths
5.1.1 Priority procurement
5.1.2 Technological advancements driving the market
5.1.3 Increasing demand for intelligence, surveillance and reconnaissance (ISR) capabilities
5.2 Weaknesses
5.2.1 Cost of space-based radars
5.2.2 Advent of stealth radar evasion systems posing an immense barrier to radar reliability
5.3 Opportunities
5.3.1 Increasing demand in missile defense applications
5.3.2 Multi-mission radars
5.3.3 Asymmetric warfare create demand for UAV based radars
5.4 Threats
5.4.1 US and European economic crisis
5.4.2 Growing Electronic Warfare may hinder the functionality of radar systems

6 Country Analysis - Military Radar Market
6.1 United States Market Size and Forecast 2014-2024
6.1.1 Airborne radars expected to constitute the largest market share in the US
6.1.2 Ground-based radars expected to account for the second largest share of US military radar expenditure
6.1.3 Demand for naval radars expected to increase during the forecast period
6.2 China Market Size and Forecast 2014-2024
6.2.1 Spending on airborne radars segment expected to be driven by hostile political environment
6.2.2 Ground-based radars segment to attract significant funding during the forecast period
6.2.3 Naval radars to account for the third largest segment of the Chinese military radar market
6.3 Indian Market Size and Forecast 2014-2024
6.3.1 Ground-based radars segment expected to account for the largest share
6.3.2 Airborne radar systems to account for the second largest expenditure
6.3.3 Spending on naval radars to be robust during the forecast period
6.4 South Korea Market Size and Forecast 2014-2024
6.4.1 Airborne radars to account for the largest share of expenditure during the forecast period
6.4.2 South Korea's unresolved conflict with North Korea to drive the spending on ground-based radars
6.4.3 Naval radars to account for the third largest sector in the South Korean military radar market
6.5 Russia Market Size and Forecast 2014-2024
6.5.1 Airborne military radar systems to lead the Russian military radars market
6.5.2 Ground-based radar to account for second largest segment of the Russian military radars market
6.5.3 Naval radar segment to value US$429 million over the forecast period
6.6 Germany Market Size and Forecast 2014-2024
6.6.1 Airborne military radars in Germany to register a CAGR of 2.81% over the forecast period
6.6.2 Expenditure on Space-based radars to account for the second largest share in Germany
6.6.3 Ground-based radar to account for third largest segment of the German military radars market
6.7 The United Kingdom Market Size and Forecast 2014-2024
6.7.1 Airborne radars to lead the military radars market in the UK
6.7.2 Naval radar segment in UK to account for the second largest share over the forecast period
6.7.3 Ground-based radar segment in UK to register a CAGR of 5.16% over the forecast period
6.8 UAE Market Size and Forecast 2014-2024
6.8.1 Augmented by high expenditure on sophisticated fighter aircrafts, the UAE Airborne military radars market will continue to have upward trend during the forecast period
6.8.2 Expenditure on the ground-based military radars expected to be robust over the forecast period
6.9 Saudi Arabia Market Size and Forecast 2014-2024
6.9.1 The market for airborne military radars expected to increase during the forecast period
6.9.2 THAAD missile procurement to drive the ground-based radars market in Saudi Arabia
6.10 Brazil Market Size and Forecast 2014-2024
6.10.1 SISFRON program to drive market for ground-based radar in Brazil
6.10.2 Airborne radar to account for second largest share of Brazilian radar spending
6.10.3 Naval radars to register a CAGR of 9.28% over the forecast period
6.11 Algeria Market Size and Forecast 2014-2024
6.11.1 Airborne military radar market to decline during the forecast period
6.11.2 Naval radars to register a CAGR of 4.56% over the forecast period in Algeria
6.12.1 Airborne military radars market to increase during the forecast period
6.12.2 Naval radars account for second largest share of South African radar spending

7 Major Military Radar Programs
7.1 Ground-based
7.1.1 India - Long range tracking radars
7.1.2 US - Space Fence Program
7.1.3 India - X-Band
7.2 Space-based
7.2.1 Germany - SARah - satellite-based radar reconnaissance system
7.2.2 Japan/Vietnam - Radar Imaging Satellites
7.2.3 Canada - RADARSAT Constellation Mission
7.3 Airborne
7.3.1 UK/Germany/Italy/Spain - Captor radar systems
7.3.2 US - Joint Surveillance Target Attack Radar System (Joint STARS)
7.4 Naval
7.4.1 US - Air and Missile Defense Radar program
7.4.2 Germany - TRS-4D/NR Radar Program
