Molecular and Cell Biology of Pain, Vol 131. Progress in Molecular Biology and Translational Science

Description: Pain is the number one reason that people seek medical attention but pain is still under- and poorly-treated world-wide. The purpose of this book is to give an up to date picture of what causes pain, how pain becomes chronic and what pharmacological targets might be manipulated to alleviate acute and chronic pain. The book will cover a wide array of topics from gene polymorphisms to voltage-gated ion channels moving from cellular biology to whole animal physiology.

- Written by future leaders in the pain field
- Covers a wide range of targets
- Contains provocative ideas about the future direction of the pain field.

Contents:

An Introduction to Pain Pathways and Pain "Targets?  
Vaskar Das

Peripheral Scaffolding and Signaling Pathways in Inflammatory Pain  
Nathaniel A. Jeske

Contribution of Mechanosensitive Ion Channels to Somatosensation  
Reza Sharif-Naeini

Sensory TRP Channels: The Key Transducers of Nociception and Pain  
Aaron D. Mickle, Andrew J. Shepherd and Durga P. Mohapatra

The Contribution of Mitochondria to Sensory Processing and Pain  
Sarah J. L. Flatters

Regulation of Gene Expression and Pain States by Epigenetic Mechanisms  
Sandrine M. Géranton and Keri K. Tochiki

Translation Control of Chronic Pain  
Ohannes K. Melemedjian and Arkady Khoutorsky

miRNA Biology and Pain  
Marguerite K. McDonald and Seena K. Ajit

Role of Extracellular Damage-Associated Molecular Pattern Molecules (DAMPs) as Mediators of Persistent Pain  
Jungo Kato and Camilla I. Svensson

mGluRs Head to Toe in Pain  
Benedict J. Kolber

Non-neuronal Central Mechanisms of Pain: Glia and Immune Response  
E. Alfonso Romero-Sandoval and Sarah Sweitzer

Synaptic Inhibition and Disinhibition in the Spinal Dorsal Horn  
Steven A. Prescott

Dendritic Spine Dysgenesis in Neuropathic Pain  
Andrew Michael Tan

Commonalities between Pain and Memory Mechanisms and their Meaning for Understanding Chronic Pain  
Theodore J. Price and Kufreobong E. Inyang

Dietary Influence on Pain via the Immune System  
Stacie K. Totsch, Megan E. Waite and Robert E. Sorge

Chemotherapy-Induced Peripheral Neuropathy  
Jill C. Fehrenbacher

Stress and Chronic Pelvic Pain  
Angela N. Pierce and Julie A. Christianson

Meningeal Afferent Signaling and the Pathophysiology of Migraine  
Carolina Burgos-Vega, Jamie Moy and Greg Dussor

Chronic Pain Syndromes, Mechanisms, and Current Treatments  
Justin Sirianni, Mohab Ibrahim and Amol Patwardhan
Ordering:

Order Online - [http://www.researchandmarkets.com/reports/3025293/](http://www.researchandmarkets.com/reports/3025293/)

Order by Fax - using the form below

Order by Post - print the order form below and send to

Research and Markets,
Guinness Centre,
Taylors Lane,
Dublin 8,
Ireland.
Fax Order Form
To place an order via fax simply print this form, fill in the information below and fax the completed form to 646-607-1907 (from USA) or +353-1-481-1716 (from Rest of World). If you have any questions please visit http://www.researchandmarkets.com/contact/

Order Information
Please verify that the product information is correct.

Product Name: Molecular and Cell Biology of Pain, Vol 131. Progress in Molecular Biology and Translational Science
Web Address: http://www.researchandmarkets.com/reports/3025293/
Office Code: SCPLB5O9

Product Format
Please select the product format and quantity you require:

Quantity
Hard Copy (Hard Back): ☐ USD 138 + USD 28 Shipping/Handling

* Shipping/Handling is only charged once per order.

Contact Information
Please enter all the information below in BLOCK CAPITALS

Title: Mr ☐ Mrs ☐ Dr ☐ Miss ☐ Ms ☐ Prof ☐
First Name: ___________________________ Last Name: ___________________________
Email Address: * ___________________________
Job Title: ___________________________
Organisation: ___________________________
Address: ___________________________
City: ___________________________
Postal / Zip Code: ___________________________
Country: ___________________________
Phone Number: ___________________________
Fax Number: ___________________________

* Please refrain from using free email accounts when ordering (e.g. Yahoo, Hotmail, AOL)
Payment Information

Please indicate the payment method you would like to use by selecting the appropriate box.

☐ Pay by credit card: You will receive an email with a link to a secure webpage to enter your credit card details.

☐ Pay by check: Please post the check, accompanied by this form, to:
Research and Markets,
Guinness Center,
Taylors Lane,
Dublin 8,
Ireland.

☐ Pay by wire transfer: Please transfer funds to:
