Global Municipal Solid Waste Management Market 2014-2018

Description: About Municipal Solid Waste Management

Municipal solid waste management generally refers to the management of solid waste from residential societies, streets, public places, commercial buildings, hospitals, and other institutions. The management of these types of waste is mainly the responsibility of municipal and other governmental authorities. Municipal solid waste management is one of the major problems being faced worldwide. Municipal solid waste is a part of the large universe of waste and mostly includes the waste collected under the formal municipal programs. Proper and efficient management of municipal solid waste can contribute to the mitigation of many problems related to pollution, climatic changes, and public health.

The analysts forecast the Global Municipal Solid Waste Management market to grow at a CAGR of 8.73 percent over the period 2013-2018.
