Global PIM Market 2014-2018

Description:

About PIM

PIM is used during the manufacturing process of products, such as medical devices, aerospace components, and automotive components, through net-shaping technique. Powder (metal or ceramic) is injected into an injection molding machine and then molded into specific designs as per specifications. PIM is useful in manufacturing complex product components in high volume.

The analysts forecast the Global PIM market to grow at a CAGR of 11.37 percent over the period 2013-2018.
