E-learning Market in Europe 2015-2019

Description:

About E-learning

E-learning refers to the learning facilitated with the help of electronic media. It comprises all forms of electronically supported learning and teaching tools, and is widely adopted by educational institutions, especially for higher education. E-learning service providers deliver learning solutions through the latest tools and technology, thus providing users with rich media and graphic-based learning. Since this form of learning is cost-effective and helps enhance employees' efficiency and productivity, many organizations across the globe have completely replaced their traditional forms of training with e-learning.

The analysts forecast the E-learning market in Europe to grow at a CAGR of 9.30 percent over the period 2014-2019.
