Hormones and Transport Systems, Vol 98. Vitamins and Hormones

Description: First published in 1943, Vitamins and Hormones is the longest-running serial published by Academic Press. The Series provides up-to-date information on vitamin and hormone research spanning data from molecular biology to the clinic. A volume can focus on a single molecule or on a disease that is related to vitamins or hormones. A hormone is interpreted broadly so that related substances, such as transmitters, cytokines, growth factors and others can be reviewed.

This volume focuses on hormone and transport systems.

- Expertise of the contributors
- Coverage of a vast array of subjects
- In depth current information at the molecular to the clinical levels
