Global Aviation Cyber Security Market 2015-2019

Description:

About Aviation Cyber Security
Cyber threats are internet-based attempts to disrupt or damage IT systems and hack critical information using spyware, malware, and phishing. Cyber security solutions help organizations in the Aviation sector detect, monitor, report, and counter cyber threats while maintaining the confidentiality of IT systems. Aviation cyber security solutions help protect critical data or any kind of digital asset stored on a computer or in a digital memory device. In the current scenario, increased internet penetration has given rise to sophisticated attacks on IT business infrastructure. Cyber threats are a major concern for the Aviation sector because of the increased use of mobile devices and applications.

The analysts forecast the Global Aviation Cyber Security market to grow at a CAGR of 5.94 percent over the period 2014-2019.
