Automotive Interior Components Market by Product, Application And by Region - Global Forecasts & Analysis to 2019

Description:
Automotive Interior Components Market by Product (Cockpit Module, Seat, Door Panels, Infotainment System, Lighting & Headliner), Application (PC, LCV & HCV) And by Region (Asia-Oceania, North America, Europe & ROW ) - Global Forecasts & Analysis to 2019

Rising income levels and urban traffic congestion drives the demand for comfort in automobiles. The interiors of a vehicle play a vital role in offering desired comfort and the end-user directly interacts with interior components of the vehicle including infotainment system, seat, and cockpit module among others. The interiors of the vehicle are also an important factor influencing the aesthetic appeal of a vehicle and buying decision of the end-user. Apart from luxury and premium vehicles, mid-sized, economical cars are feature comfortable interiors in their vehicle models to remain competitive in the market. OEMs are making use of cost-efficient technologies and materials to cater to these demands in mid-sized budget cars.

Apart from increasing the comfort, weight reduction is also an important focus area for the Tier I suppliers. These suppliers are using lightweight materials in their products to comply with stringent fuel-efficiency norms, without sacrificing structural strength, and safety. While manufacturing these components, the durability and environmental friendliness of the material are also few of the important considerations for suppliers.

In this report, the automotive interiors market covers components such as cockpit module, door panel, seat, interior lighting, headliners, sun visors, and infotainment. Furthermore, the market has been segmented on the basis of vehicle type (passenger car, LCV, and HCV). The passenger car segment held the largest share in the global automotive interiors market, in 2014.

The global automotive interiors market is marked with intense competition, given the presence of large number of both global and regional players. Few of the major global players in the market include Johnson Controls (U.S.), Faurecia (France), Continental AG (Germany), and Visteon (U.S.).
