Alwar City Gas Distribution Market Forecast and Opportunities 2040

Description:
City Gas Distribution (CGD) network is being implemented in Indian cities to supply piped natural gas to industrial, commercial and residential market segments, and compressed natural gas to transportation sector. Rising energy demand coupled with growing consumption of natural gas are likely to create a spur in CGD network deployment in India through the forecast period. Within industrial segment, CGD network caters to diverse industrial and manufacturing units, while in commercial segment, the network addresses the requirements of commercial establishments such as hotels, restaurants and hospitals. Currently, CGD network has been implemented in 21 cities in India. Government of India has also voiced intentions to extend CGD network to 200 cities in order to enable access to cleaner and greener fuel across a number of consumer segments in the country.

According to “Alwar City Gas Distribution Market Forecast & Opportunities, 2040”, the demand for natural gas for city gas distribution network in Alwar district is anticipated to grow at around 15% CAGR during 2018-2040. The report underlines that the earnings for a natural gas supplier in the district are estimated with a post-tax Internal Rate of Return (IRR) of 18% on combined natural gas transmission tariff and natural gas supply. Furthermore, likely earnings for transmission tariff have been calculated with an IRR of 10%. Industrial segment is expected to contribute the highest in overall natural gas demand during the forecast period. Industries such as general manufacturing, breweries/distilleries, and textile are expected to be the leading natural gas consumers through 2040. Currently, prominent companies that are engaged in setting up CGD network in India include GAIL, HPCL, IGL, IOCL, and British Gas. “Alwar City Gas Distribution Market Forecast & Opportunities, 2040” discusses the following aspects related to CGD market in Alwar District:

- Natural Gas Demand in Alwar District
- Segmental Analysis – Industrial, Commercial, Transport & Household
- Bidding Guidelines

Why You Should Buy This Report?
- To gain an in-depth understanding of City Gas Distribution market in Alwar district
- To identify natural gas demand and anticipated growth until 2040
- To help industry consultants and natural gas suppliers align their market-centric strategies
- To obtain research-based business decisions and add weight to presentations and marketing material
- To avail 10% customization in the report without any extra charges and get research data or trends added in the report as per the buyer's specific needs

Report Methodology

The information contained in this report is based upon both primary and secondary sources. Primary research included interviews with manufacturing associations, conventional fuel users and industry experts from different regions within the district. Secondary research included an exhaustive search of relevant publications like company annual reports, financial reports and other proprietary databases.

Contents:
1. Research Methodology
2. Questionnaire
3. Executive Summary
4. Indian Economy & Energy Sector Outlook
5. Alwar District Profile
6. Alwar District Total Natural Gas Demand
7. Alwar District Industrial Sector Natural Gas Demand
8. Alwar District Transport Segment Compressed Natural Gas (CNG) Demand
9. Alwar District Commercial Sector Piped Natural Gas (PNG) Demand
10. Alwar District Household Sector Piped Natural Gas (PNG) Demand
11. PNGRB Bidding Guidelines for CGD Network
12. Annexures
