Global Surveillance and Security Equipment Market 2015-2019

Description: About Surveillance and Security Equipment
Surveillance and security equipment is used for monitoring activities and behavior of individuals in areas such as airports, sea ports, railway stations, enterprises, educational institutions, retail stores, and banks that are susceptible to security threats. Proper surveillance in these areas helps reduce the occurrence of terrorist attacks and data theft. The footage and other information captured by the surveillance equipment are transmitted across the network and stored for future use. The installation of surveillance devices at various points reduces the need for security agents.

The analysts forecast the Global Surveillance and Security Equipment market to grow at a CAGR of 13.58 percent over the period 2014-2019.
