Psychology of Learning and Motivation, Vol 63

Description: Psychology of Learning and Motivation publishes empirical and theoretical contributions in cognitive and experimental psychology, ranging from classical and instrumental conditioning to complex learning and problem solving. Each chapter thoughtfully integrates the writings of leading contributors, who present and discuss significant bodies of research relevant to their discipline. Volume 63 includes chapters on such varied topics as memory and imagery, statistical regularities, eyewitness lineups, embodied attention, the teleological choice rule, inductive reasoning, causal reasoning and cognitive and neural components of insight.

- Volume 63 of the highly regarded Psychology of Learning and Motivation series
- An essential reference for researchers and academics in cognitive science
- Relevant to both applied concerns and basic research
