Enterprise WLAN Market by Components, by Software, by Services, by Verticals, by End Users, by Regions - Global Forecast to 2019

Description: The report on the enterprise WLAN market focuses on various WLAN components, software solutions, services, verticals, and end users that are driving this market. NA, Europe, and APAC are the top three regions that hold the largest market share in the year 2014. The growth of mobile devices such as smartphones and tablets has fueled the demand for new wireless networking equipment that supports higher capacity, enhanced scale, and reliability. From an applications and services perspective, voice, video, location, and context capabilities are growing exponentially. The enterprise WLANs enables the enterprises to manage this huge mobile workforce to access the core company network at the same time supporting high data traffic seamlessly. This is the main reason BYOD trend is considered as the major driver of enterprise WLAN market.

The various factors driving these markets are also described in the regional sections of the report. Apart from the regional analysis, the trends of the component markets and reasons for the rise in the market size of a particular solution, and segment market are also described in the report. The report ends with the competitive landscape highlighting the recent M&A, venture funding, and product developments that has happened in the industry in the recent past; the company profiles section highlights the players' dominance in this market and their strategies for expansion to gain a large market share in the enterprise WLAN market.

The global enterprise WLAN market report is segmented on the basis of components, software, services, end users, vertical, and regions. The technologies are further categorized into access points, WLAN controllers, and Wireless Hotspot Gateway. On the basis of Software solutions the market is defined as network management, network monitoring and intrusion prevention system, and network performance analytics market. The services are segmented as network planning and design, installation and deployment, and network support services. Further, the type of users is categorized into small and medium business enterprises (SMES), and large enterprises.

Reasons to Buy the Report:

From an insight perspective, this research report has focused on various levels of analysis industry analysis (industry trends, and Porter analysis), analysis of top players, their offered products and services, supply chain analysis, and company profiles, which together comprise and discuss the basic views on the competitive landscape, emerging and high-growth segments of the network analytics market, high-growth regions, drivers, restraints, and opportunities.

The report will enrich both established firms as well as new entrants/smaller firms to gauge the pulse of the market, which in turn will help the firms in garnering a greater market, share. Firms purchasing the report could use any one or combination of the below mentioned five strategies (market penetration, product development/innovation, market development, market diversification, and competitive assessment) for strengthening their market share.

The report provides insights on the following pointers:

- Market Penetration: Comprehensive information on network analytics solutions and services offered by the top 10 players in the network analytics market
- Product Development/Innovation: Detailed insights on upcoming technologies, research and development (R&D) activities, and new product launches in the network analytics market
- Market Development: Comprehensive information about lucrative emerging markets. The report analyzes the markets for network analytics solutions and services across various regions
- Market Diversification: Exhaustive information about new products, untapped regions, recent developments, and investments in the network analytics market
- Competitive Assessment: In-depth assessment of market shares, strategies, products, and capabilities of leading players in the network analytics market
Contents:

1 Introduction
   1.1 Objectives Of The Study
   1.2 Market Definition
   1.3 Market Scope
      1.3.1 Markets Covered
      1.3.2 Years Considered For The Study
   1.4 Currency
   1.5 Stakeholders
   1.6 Limitations

2 Research Methodology
   2.1 Introduction
   2.2 Market Size Estimation
   2.3 Market Breakdown And Data Triangulation
   2.4 Market Share Estimation
      2.4.1 Key Data From Secondary Sources
      2.4.2 Key Data From Primary Sources
      2.4.2.1 Key Industry Insights
   2.5 Assumptions

3 Executive Summary

4 Premium Insights
   4.1 Attractive Market Opportunities In The Enterprise WLAN Market
   4.2 Enterprise WLAN: Service Market
   4.3 Components And Software In The Enterprise WLAN Market (North America)
   4.4 Life Cycle Analysis, By Region (2014)

5 Market Overview
   5.1 Introduction
   5.2 Evolution
   5.3 Market Segmentation
      5.3.1 By Component
      5.3.2 By Software
      5.3.3 By Service
   5.4 Market Dynamics
      5.4.1 Drivers
         5.4.1.1 Adoption Of Byod Trend
         5.4.1.2 Improved Focus On Core Business
         5.4.1.3 Upgradation Of Network Infrastructure
      5.4.2 Restraints
         5.4.2.1 Lack Of Skilled Personnel
         5.4.2.2 Limited Investment By Enterprises In WLAN Management Tools
      5.4.3 Opportunities
         5.4.3.1 Ieee 802.11Ac Family Of Standards
         5.4.3.2 Customized WLAN Products For The Smes
      5.4.4 Challenges
         5.4.4.1 Bandwidth And Latency Issues

6 Industry Trends
   6.1 Value Chain Analysis
   6.2 Porter’S Five Forces Analysis
      6.2.1 Bargaining Power Of Suppliers
      6.2.2 Bargaining Power Of Buyers
      6.2.3 Threat From New Entrants
      6.2.4 Threat From Substitutes
      6.2.5 Intensity Of Rivalry

7 Enterprise WLAN Market Analysis, By Component
   7.1 Introduction
   7.2 Access Points
   7.3 WLAN Controllers
   7.4 Wireless Hotspot Gateways
8 Enterprise WLAN Market Analysis, By Software
  8.1 Introduction
  8.2 Network Management
  8.3 Network Intrusion Prevention System
  8.4 Network Performance Analytics And Prevention System

9 Enterprise WLAN Market Analysis, By Service
  9.1 Introduction
  9.2 Network Planning And Design
  9.3 Installation And Deployment
  9.4 Network Support

10 Enterprise WLAN Market Analysis, By End User
  10.1 Introduction
  10.2 Small And Medium Enterprises
  10.3 Large Enterprises

11 Enterprise WLAN Market Analysis, By Vertical
  11.1 Introduction
  11.2 Telecom And It
  11.3 Financial Services
  11.4 Education
  11.5 Healthcare
  11.6 Hospitality
  11.7 Government And Public Infrastructure
  11.8 Logistics And Transportation
  11.9 Retail
  11.10 Others

12 Geographic Analysis
  12.1 Introduction
  12.2 North America
  12.3 Europe
  12.4 Asia-Pacific
  12.5 Middle East And Africa
  12.6 Latin America

13 Competitive Landscape
  13.1 Overview
  13.2 Product Portfolio Comparison
  13.3 Market Evaluation Framework
  13.4 Ecosystem And Roles
  13.5 End User Analysis
    13.5.1 The Wi-Fi Enabled Equipment Shipments Is Expected To Reach 4.9 Billion By 2017
    13.5.2 Proportion Of Smart Phones
    13.5.3 Proliferation Of Devices Used For Connectivity
    13.6 Competitive Situation And Trends
      13.6.1 New Product Launches
      13.6.2 Agreements, Partnerships, Collaborations, And Joint Ventures
      13.6.3 Mergers & Acquisitions

14 Company Profiles
  14.1 Introduction
  (Business Overview, Products & Services, Key Insights, Recent Developments, Swot Analysis, Mnm View)*
  14.2 Aruba Networks
  14.3 Aerohive Networks
  14.4 Alcatel-Lucent
  14.5 Ruckus Wireless
  14.6 Cisco Inc.
  14.7 Ericsson
  14.8 Netgear
  14.9 Hewlett-Packard
14.10 Motorola Solutions
14.11 Ubiquiti Networks
*Details On Business Overview, Products & Services, Key Insights, Recent Developments, Swot Analysis, MnM View Might Not Be Captured In Case Of Unlisted Companies.

15 Appendix
15.1 Insights Of Industry Experts
15.2 Discussion Guide
15.3 Introducing Rt: Real-Time Market Intelligence
15.4 Available Customizations
15.5 Related Reports
