cPDM Market in South Korea 2015-2019

Description: About cPDM

Collaborative product definition management (cPDM) software solutions is a strategic business approach applying a consistent set of business solutions that collaboratively provide effective and efficient methods for managing the functions of product lifecycle management (PLM). They help in effective product data management, collaborative product visualization, collaborative product commerce, effective integration of cPDM with enterprise applications, and supplier relationship management (SRM). cPDM software solutions assist in streamlining manufacturing and production processes for efficient business operation. cPDM helps enterprises bring innovative and profitable products to market more effectively in the evolving e-business web-enabled environment. These software solutions are adopted by industries such as the Automotive, Electronics, Industrial Machinery, Aerospace and Defense, Process Packaged Goods, Petrochemical, and Shipbuilding.

The analysts forecast the cPDM market in South Korea region to grow at a CAGR of 13.30 percent over the period 2014-2019.
