
Description: Thermal Power in UAE, Market Outlook to 2025, Update 2015 - Capacity, Generation, Levelized Cost of Energy (LCOE), Investment Trends, Regulations and Company Profiles

Summary

"Thermal Power in UAE, Market Outlook to 2025, Update 2015 - Capacity, Generation, Levelized Cost of Energy (LCOE), Investment Trends, Regulations and Company Profiles" is the latest report from The publisher, the industry analysis specialists that offer comprehensive information and understanding of the thermal power market.

The report provides in depth analysis on global thermal power market with forecasts up to 2025. The report analyzes the power market scenario in UAE(includes thermal, nuclear, large hydro, pumped storage and renewable energy sources) and provides future outlook with forecasts up to 2025. The research details thermal power market outlook in the country and provides forecasts up to 2025. The report highlights installed capacity and power generation trends from 2001 to 2025 in UAE thermal power market. A detailed coverage of thermal energy policy framework governing the market with specific policies pertaining to thermal is provided in the report. The research also provides details of active thermal power plants in the country, upcoming thermal installation details and company snapshots of some of the major market participants.

The report is built using data and information sourced from proprietary databases, secondary research and in-house analysis by Our team of industry experts.

Scope

The report analyses global thermal power market, UAE power market and UAE thermal power market. The scope of the research includes -
- A brief introduction on global carbon emissions and global primary energy consumption.
- Historical period is during 2001-2014 (unless specified) and forecast period is for 2015-2025.
- Detailed overview on the global thermal power market with installed capacity and generation trends, market forces analysis (drivers, restraints and challenges), installed capacity by fuel type, installed capacity split by region, installed capacity split by major countries and cross country comparison among thermal sources such as coal, oil and gas.
- Power market scenario in UAE and provides detailed market overview, installed capacity and power generation trends by various fuel types (includes thermal, nuclear, large hydro and renewable energy sources) with forecasts up to 2025.
- Detailed overview of UAE thermal power market with installed capacity and generation trends, installed capacity by fuel type, net capacity addition by fuel type, owners share, market size of major equipments such as steam generator and turbine, and information on major active and upcoming projects.
- Key policies and regulatory framework supporting thermal power development.
- Company snapshots of some of the major market participants in the country.

Reasons to buy

The report will enhance your decision making capability in a more rapid and time sensitive manner. It will allow you to -
- Identify key growth and investment opportunities in UAE thermal power market.
- Facilitate decision-making based on strong historic and forecast data for thermal power market.
- Position yourself to gain the maximum advantage of the industry's growth potential.
- Develop strategies based on the latest regulatory events.
- Identify key partners and business development avenues.
- Understand and respond to your competitors' business structure, strategy and prospects.
