Global Network Management Software Market 2015-2019

Description:

About Network Management Software

Network management software manages computer networks that are spread over a wide range of network devices and software. The software is used to monitor, control, configure, troubleshoot, plan, allocate, deploy, and coordinate network-based business operations. This software also enables network managers to supervise the individual components within the network management framework that is spread across various regions. Moreover, it helps SMBs and large enterprises reduce the operational cost, centralize the contact center for the network locations, and ease the adaption to the network changes. Furthermore, the integration of network-based tools such as network performance, monitoring management, and network configurations management helps an organization operate and control the whole network cycle. Nowadays, organizations are using automated transmission devices, which has led to a high demand for network management services and solutions.

The analysts forecast the Global Network Management Software market to grow at a CAGR of 6.95 percent over the period 2014-2019.

Covered in this Report

This report covers the present scenario and the growth prospects of the Global Network Management Software market for the period 2015-2019. To calculate the market size, the report considers the revenue generated from network management:
- Products
- Services

The report, Global Network Management Software Market 2015-2019, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects in the coming years. The report also includes profile of key vendors operating in this market.

Key Regions
- APAC
- Europe
- Latin America
- MEA
- North America

Key Vendors
- CA Technologies
- HP
- IBM
- NetScout Systems

Other Prominent Vendors
- Alcatel-Lucent
- BMC Software
- Compuware
- ERICSSON (LM) TEL-SP ADR
- Huawei Technologies
- Juniper Networks
- Nokia Siemens Networks
- Visual Network Systems
- ZTE

Market Drivers
- Need for Network Security
- For a full, detailed list, view this report
Market Challenges
- Need to Maintain Network Efficiency and High Responsiveness
- For a full, detailed list, view this report

Market Trends
- Automation of Network Management Software Tools
- For a full, detailed list, view this report

Key Questions Answered in this Report
- What will the market size be in 2019 and what will the growth rate be?
- What are the key Market Trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?
- What are the market opportunities and threats faced by the key vendors?
- What are the strengths and weaknesses of the key vendors?
