Global Workforce Management (WFM) Software Market in Healthcare 2015-2019

Description:

About Workforce Management Software

Traditionally, workforce management was handled with the help of spreadsheets and time recording, which are time-consuming, can lead to non-productive idle times and poor customer services, and incur high operational costs. WFM software helps businesses to manage workforce scheduling, increase operational performance, and identify and solve workforce-related issues. WFM solutions can be deployed across organizations and are beneficial to all types of businesses as they ensure that the right people with the desired skills are recruited for a job.

Workforce management encompasses the following activities:

- Time, attendance, and leave management
- HR administration
- Performance management
- Budgeting of workforce
- Talent management
- Activity management
- Training and development

The analysts forecast the global workforce management software market in the healthcare sector to grow at a CAGR of 13.18 percent over the period 2014-2019.
