
Description: Automatic Identification System Market by Class (Class A, Class B, & Only Receiver), by Platform (Vessel-Based, Onshore-Based & Satellite Based), by Application (Traffic Management, Vessels Tracking, Ocean Race Management, Maritime Security, Marine Environment Protection, and Fishery Control) and by Geography - Global Forecasts & Analysis 2014 - 2020

This report provides market analysis of the Automatic Identification Systems market, over the next six years. It contains an analysis of the drivers, challenges, and restraints that affect the industry, along with their impact from the short, medium, and long term perspective landscapes.

It also discusses the industry, market, and technology trends that currently, prevail in the market. It is expected that the need of concerned authorities to efficiently manage the increasing marine traffic and increasing importance of maritime security would shape and influence the said market. This report also highlights the industry value chain, with a detailed porters five forces model and market life cycle analysis of the Automatic Identification Systems market. Another aspect which is elucidated is the illustrative segmentation, geographical analysis, and forecast of the major markets to provide an overall, view of the global market.

The report contains an in-depth analysis of the Automatic Identification Systems by platform including, vessel-based, onshore-based, and satellite-based, by Class including, Class A, Class B, and Only receiver, and by application including, traffic management, vessels tracking, ocean race management, maritime security, marine environment protection, and fishery control.

Premium insights from the key opinion leaders are quoted in this report to provide a holistic view of this market. A competitive landscape comprising of identification of key players and their market share, has also been provided in the report. Strategic profiling of the key players in the Automatic Identification Systems market along with, a comprehensive analysis of the latest developments, key growth strategies, investments, and core competencies in each segment have been identified.

Key players profiled in the report are Furuno Electric Co. Ltd (Japan), Japan Radio Co. Ltd. (Japan), Saab Transponder Tech AB (Sweden), exactEarth (Canada), ORBCOMM (U.S.) among others.

It exhibits an in-depth analysis of the AIS technology, along with, a detailed analysis of major countries from each region. The report also specifies the key growth regions and countries for this market along with, emerging trends and technologies.
