Oxidative Stress Assay Market by Product, Test Type, Technology, End Users - Global Forecast to 2020

Description: Oxidative stress assays are widely used to determine the levels of oxidative stress markers in cultured cells used in research and bioproduction. The growth of the oxidative stress assays market is mainly driven by rapid growth in the biopharmaceutical industry, strong trend of R&D investments in pharmaceutical and biotechnology industries, technological advancements like high-content screening for drug discovery, and government funding for life science research. The high growth potential in emerging markets provides new growth opportunities to players in the oxidative stress assays market.

In this report, the oxidative stress assays market is segmented by product, test type, technology, end user, and region. The product segments included in this report are consumables, instruments, and services. The test type segments included in this report are indirect assays, antioxidant capacity assays, enzyme-based assays, and reactive oxygen species (ROS)-based assays. The technology segments included in this report are enzyme-linked immunosorbent assay (ELISA), chromatography, flow cytometry, microscopy, high-content screening, and label-free detection technology. The end-user segments included in this report are pharmaceutical and biotechnology companies, academic research institutes, clinical laboratories, and contract research organizations (CROs). The regional segments included in this report are North America, Europe, Asia, and the Rest of the World (RoW).

A combination of bottom-up and top-down approaches were used to calculate the market sizes and growth rates of the global oxidative stress assays market and its subsegments. Secondary information was used to identify the overall revenue, geographic reach, and product portfolios of market players. Estimates of the oxidative stress assays market segment revenues were validated through primary interviews. Primary interviews with key opinion leaders were also used to determine the percentage shares of each subsegment and the relative differences in growth rates.

The report provides qualitative insights on the key market shares, growth rates, and market drivers for all important subsegments. It maps market sizes and growth rates of each segment and identifies segments poised to witness rapid growth. The report includes company profiles and a competitive landscape of the oxidative stress assays market. The company profiles include the financial performances, product portfolios, and developments of each company; whereas, the competitive landscape covers the growth strategies adopted by industry players over the last three years. The report also includes analyses of industry developments such as acquisitions; agreements, collaborations, and partnerships; new product launches; and other developments.

Reasons to Buy the Report:

The report will enable both established firms and new entrants to gauge the pulse of the market and to help them make important strategic growth decisions.

The report provides insights on the following:

- Product Development/Innovation: Product portfolios of the top players in the oxidative stress assays market. Detailed insights on upcoming technologies, research and development activities, and new product launches in the oxidative stress assays market
- Competitive Assessment: In-depth assessment of market shares, strategies, geographic and business segments, and product portfolios of the leading players in the oxidative stress assays market
- Market Development: Comprehensive information about lucrative emerging markets. The report analyzes the market for various oxidative stress assays across geographies
- Market Diversification: Exhaustive information about new products, recent developments, and investments in the oxidative stress assays market

Contents:
1 Introduction
  1.1 Objectives of the Study
  1.2 Market Definition
8.3 Flow Cytometry
8.4 Chromatography
8.3 Microscopy
8.4 High-Content Screening
8.5 Label-Free Detection

9 Oxidative Stress Assays Market, By Test Type
9.1 Introduction
9.2 Indirect Assays
9.2.1 Protein-Based Assays
9.2.2 Lipid-Based Assays
9.2.3 Nucleic Acid-Based Assays
9.3 Antioxidant Capacity Assays
9.3.1 Glutathione Assays
9.3.2 Ascorbic Acid Assays
9.3.3 Cell-Based Exogenous Antioxidant Assays
9.4 Enzyme-Based Assays
9.5 Reactive Oxygen Species-Based Assays

10 Oxidative Stress Assays Market, By End User
10.1 Introduction
10.2 Pharmaceutical and Biotechnology Companies
10.3 Academic Research Institutes
10.4 Clinical Laboratories
10.5 Contract Research Organizations

11 Oxidative Stress Assays Market, By Region
11.1 Introduction
11.2 North America
11.3 Europe
11.4 Asia
11.5 Rest of the World (RoW)

12 Competitive Landscape
12.1 Introduction
12.2 Market Share Analysis, Oxidative Stress Assays Market
12.3 Competitive Situation and Trends
12.3.1 New Product Launches
12.3.2 Acquisitions
12.3.3 Agreements, Collaborations, and Partnerships
12.3.4 Other Developments

13 Company Profiles
13.1 Introduction
13.2 Abcam PLC
13.2.1 Business Overview
13.2.2 Product Portfolio
13.2.3 Recent Developments
13.2.4 MnM View
13.2.4.1 Financial Analysis
13.2.4.2 Strategic Analysis
13.3 Enzo Biochem, Inc.
13.3.1 Business Overview
13.3.2 Product Portfolio
13.3.3 MnM View
13.3.3.1 Financial Analysis
13.3.3.2 Strategic Analysis
13.4 Merck KGaA (Germany)
13.4.1 Business Overview
13.4.2 Product Portfolio
13.4.3 Recent Developments
13.4.4 MnM View
13.4.4.1 Financial Analysis
13.4.4.2 Strategic Analysis
13.5 Qiagen N.V.
13.5.1 Business Overview
13.5.2 Product Portfolio
13.5.3 Recent Development
13.5.4 MnM View
13.5.4.1 Financial Analysis
13.5.4.2 Strategic Analysis
13.6 Sigma-Aldrich Corporation
13.6.1 Business Overview
13.6.2 Product Portfolio
13.6.3 Recent Developments
13.6.4 MnM View
13.6.4.1 Financial Analysis
13.6.4.2 Strategic Analysis
13.7 Thermo Fisher Scientific, Inc.
13.7.1 Business Overview
13.7.2 Product Portfolio
13.7.3 Recent Developments
13.7.4 MnM View
13.7.4.1 Financial Analysis
13.7.4.2 Strategic Analysis
13.8 AMS Biotechnology (Europe) Ltd.
13.8.1 Business Overview
13.8.2 Product Portfolio
13.8.3 Recent Development
13.8.4 Key Strategy
13.9 Biovision, Inc.
13.9.1 Business Overview
13.9.2 Product Portfolio
13.9.3 Recent Developments
13.9.4 Key Strategy
13.10 Cell Biolabs, Inc.
13.10.1 Business Overview
13.10.2 Product Portfolio
13.10.3 Key Strategy
13.11 Oxford Biomedical Research
13.11.1 Business Overview
13.11.2 Product Portfolio
13.11.3 Recent Developments
13.11.4 Key Strategy
13.12 Promega Corporation
13.12.1 Business Overview
13.12.2 Product Portfolio
13.12.3 Recent Developments
13.12.4 Key Strategy

14 Appendix
14.1 Insights of Industry Experts
14.2 Discussion Guide

Payment Information

Please indicate the payment method you would like to use by selecting the appropriate box.

☐ Pay by credit card:  
You will receive an email with a link to a secure webpage to enter your credit card details.

☐ Pay by check:  
Please post the check, accompanied by this form, to:
Research and Markets,
Guinness Center,
Taylors Lane,
Dublin 8,
Ireland.

☐ Pay by wire transfer:  
Please transfer funds to:
Account number 833 130 83
Sort code 98-53-30
Swift code ULSBIE2D
IBAN number IE78ULSB98533083313083
Bank Address Ulster Bank,
27-35 Main Street,
Blackrock,
Co. Dublin,
Ireland.
