Malaysia Smart Meters Market Forecast and Opportunities, 2023

Description: According to "Malaysia Smart Meters Market Forecast & Opportunities, 2023", the smart meter market in Malaysia is projected to grow at a CAGR of around 12% during 2016-20. Increasing concerns over security and reliability of the grid, rising share of renewable electricity and introduction of electric vehicles have raised concerns over smooth and continuous electricity supply across the country. Electricity demand in Malaysia increased by about 78% from 2000 to 2013. Moreover, during 2004-14, Tenaga Nasional Berhad (TNB), the largest electricity utility in Malaysia with a customer base of 8.5 million, is estimated to have incurred USD1.5 billion in transmission and distribution losses. TNB has been authorized by the government to conduct pilot study on smart meters in Malaysia. The project is under pilot phase, and nationwide roll-out of smart meters is expected to commence from the first quarter of 2016 and completed within a time span of 8 years.

Smart meter is an important component of the smart grid network that aids in remote monitoring of electricity supply using communication and wireless technologies. Smart meters enable two-way communication between the meter and central system wherein, users have the option of transferring surplus power generated at the consumer's end through solar power panels, back to the grid. Malaysia had an electricity access rate of 96.83% as of 2013. In order to reduce domestic consumption of natural gas for electricity generation, the Malaysian government is encouraging use of renewable sources. Further, increasing government focus to enhance electricity transmission and distribution efficiency has led to the roll out of smart meter implementation program in the country.

"Malaysia Smart Meters Market Forecast & Opportunities, 2023" report elaborates following aspects about the smart meter market in Malaysia:

- Smart Meters Market Size, Share & Forecast
- Policy & Regulatory Environment
- Changing Market Trends & Emerging Opportunities
- Strategic Recommendations & Competitive Landscape

Why You Should Buy This Report?

- To gain an in-depth understanding of Smart Meters Market in Malaysia
- To identify the on-going trends and anticipated growth in the coming years
- To help industry consultants, power generators, transmission and distribution utilities to align their market-centric strategies
- To obtain research based business decision and add weight to presentations and marketing materials
- To gain competitive knowledge of leading players
- To avail 10% customization in the report without any extra charges and get the research data or trends added in the report as per the buyer's specific needs

Report Methodology

The information contained in this report is based upon both primary and secondary sources. Primary research included interviews with smart meter suppliers and electricity utilities. Secondary research included an exhaustive search of relevant publications like company annual reports, financial reports and proprietary databases.

Contents:

1. Research Methodology
2. Analyst View
3. Product Overview
4. Global Smart Meter Market Outlook
5. Malaysia Smart Meter Market Outlook

5.1. Market Size & Forecast
5.1.1. By Value
5.1.2. By Volume
5.2. Key Indicators for Smart Meters
5.2.1. Meter Reading Automation
5.2.2. Operational Efficiency
5.2.3. Reduction in Commercial Losses of Energy
5.2.4. Improve Outage Management
5.2.5. Renewable Energy Integration
5.2.6. Growing Demand for Electric Vehicles
5.2.7. Reduce Consumption on Inactive Meter
5.2.8. Enhanced Customer Service
5.2.9. Reliability of System
5.2.10. Environmental Sustainability

6. Malaysia Smart Meter Market – A Regional Snapshot

7. Malaysia Smart Meter Market Outlook - By Cost Component
7.1. IT System & Integration
7.2. AMI & Communication

8. Market Dynamics
8.1. Drivers
8.2. Challenges

9. Trends & Developments
9.1. Renewable Energy Integration
9.2. Demand Response
9.3. Availability of Real Time Data to Help Utilities Reduce T&D Losses
9.4. Smart Meters Help Utilities Track Demand and Supply beyond Substations

10. Policy & Regulatory Landscape

11. Malaysia Economic Profile

12. Competitive Landscape
12.1. Itron Inc.
12.2. Enerv Inc.
12.3. Smart Meter Technologies
12.4. Malaysia Intelligent Meter
12.6. Echelon Corporation
12.7. Elster
12.8. Owon

13. Strategic Recommendations

Payment Information

Please indicate the payment method you would like to use by selecting the appropriate box.

☐ Pay by credit card: You will receive an email with a link to a secure webpage to enter your credit card details.

☐ Pay by check: Please post the check, accompanied by this form, to:
Research and Markets,
Guinness Center,
Taylors Lane,
Dublin 8,
Ireland.

☐ Pay by wire transfer:

Please transfer funds to:
Account number 833 130 83
Sort code 98-53-30
Swift code ULSBIE2D
IBAN number IE78ULSB98533083313083
Bank Address Ulster Bank,
27-35 Main Street,
Blackrock,
Co. Dublin,
Ireland.
