Asia Pacific Food Emulsifiers Market-Growth, Trends And Forecast (2015-2020)

Description:
Sophisticated food processing techniques by developing countries and demand for new ingredients in food processing has driven the food additives market which is estimated to reach US$ 38.7 billion by 2020 with a CAGR of 3.6%. One of the major food additives is the Emulsifier market & the food & beverage emulsifiers market in Asia-Pacific was valued at $607.8 million in 2015, and is expected to grow at a CAGR of 9.1% between 2015 and 2020. This market constitutes 22.2% of the global market and is projected to reach $940.0 million by 2020.

Desk bound lifestyles have not only increased the demand for packaged and convenience foods but also to the raising obesity levels globally. This has resulted in consumers demanding for trans fat products, driving the food processors to use emulsifiers to reduce the calories and fat content. Awareness on functional foods, and major applications in the Bakery and Confectionary Industry, Dairy, and high consumption of Ice creams, biscuits, mayonnaise, chocolates, bread, coffee, soft drinks are other drivers for food emulsifiers market. New processing techniques used for product development have also invariably raised the market for food emulsifiers. The burgeoning affluent middle class in the BRICS nations demand for convenience foods with ethnic tastes and flavors, however not without the awareness on the additives used, fat content and nutrition value.

Food emulsifiers which refer to food and oil mixtures are classified as natural and synthetic food emulsifiers. While the natural food emulsifiers are egg yolk containing Lecithin, mustard, honey and soy beans, guar gum, the synthetic emulsifiers include Mono and Di-glycerides, Sorbitan Esters, Stearoyl lactylates, Sucrose Esters, Poly Glycerol Esters and Polylglycerol Polyrincinolate. Mono & Di glyceride account for major among the synthetic emulsifiers while Lecithin dominates in the natural food emulsifiers segment.
