Office Furniture Market in India 2015-2019

Description: About Office Furniture

Indian economy has started to pick up and gather momentum after the global economic recession of 2008-2009. Emergence of e-commerce and establishment of various start-ups in the country have led to the growth of the organized retail market in the country. Apart from that, the direct sales approach is paying a lot of dividend to market vendors as the customers still prefer to purchase the products directly from the manufacturers.

Office furniture market is one of the key revenue generators of the overall furniture market in India. It accounted for a 20.45% of market share in 2014. The market is mainly dominated by the unorganized office furniture segment. However, the organized office furniture segment is also growing gradually.

The analysts forecast the office furniture market in India to grow at a CAGR of 18.98% in revenue generated by the market over the period 2014-2019.
