Patient Controlled Analgesia

Description: An increasing understanding of the physiology of pain coupled with patient-friendly dosage forms and delivery techniques is providing caregivers and prescribers with improved tools for helping patient manage their own pain. New and emerging pain delivery products that allow patients to play an active role in the timing and dosing of their pain medication allow patients to balance pain relief and medication side effects, and potentially improve quality-of-life. Pain management philosophy is based on the premise of treating pain early and aggressively.

This is based on research that pain is tightly correlated with decreased quality of life, and increased incidence of anxiety and depression. Further, pain causes the physiologic release of destructive enzymes that can damage even healthy tissue. The aging population – particularly in North America and Western Europe, where the quality of medical care is high and consumers enjoy a relatively high standard of living – will create a growing market of mature and elderly needing drug therapies and pain management for a variety of maladies associated with the aging process. These factors are attracting well-financed players and elevating alliance activity in this sector.

Highlights

- Analyzes and evaluates patient controlled analgesia (PCA) products and assesses the market potential for existing and probable future products
- Analyzes product designs, technologies and market development issues
- Provides detailed descriptions of PCA market segments, market demographics, and business strategies
- Provides market data and forecasts to 2022
- Profiles PCA product companies, their product development activities, business strategies, and corporate alliances and affiliations
- Assesses the importance of pharma-device alliances and design partnerships
- Evaluates the impact of economic, technology, and regulatory factors on PCA markets

Contents:

1. Executive Summary

2. Pain Management Market Dynamics
   - Tracking the Growth of PCA
   - Demand Drivers
   - Demographic Shifts
   - Evolving Pain Management Guidelines
   - Growth in Self-Administration
   - Technology Market Drivers
   - PCA Market Strategies

3. PCA Design Factors
   - Patient Usability
   - Medication Errors and Safety
   - Dose and Lockout Intervals
   - Bolus Dosing

4. PCA Device Assessments
   - Infusion Pumps
   - In-Patient/Bedside PCA Infusion
   - Ambulatory PCA Infusion
   - Active Transdermal Systems
   - Development-Stage PCA Devices
   - Intranasal Sprays
   - Sublingual Sprays
   - Pulmonary (Systemic) Inhalers

More information from http://www.researchandmarkets.com/reports/3275100/
5. PCA Market Assessments and Analysis
   - PCA Market Segments
     - In-Patient
     - Ambulatory
     - Home Care
   - PCA Indications
     - Trauma
     - Post-Operative/Obstetric Pain
     - Cancer Pain
     - Chronic Pain
     - Nociceptive Pain
     - Neuropathic Pain

6. Market Factors
   - Healthcare Regulations
   - Industry Standards
   - Managed Care Initiatives
   - Caregiver Training & Patient Monitoring

7. Market Data & Forecasts
   - North America
   - Europe
   - Japan
   - Other Geographies

8. Sector Participant Company Profiles

Ordering:
Order Online - http://www.researchandmarkets.com/reports/3275100/
Order by Fax - using the form below
Order by Post - print the order form below and send to

        Research and Markets,
        Guinness Centre,
        Taylors Lane,
        Dublin 8,
        Ireland.
Fax Order Form
To place an order via fax simply print this form, fill in the information below and fax the completed form to 646-607-1907 (from USA) or +353-1-481-1716 (from Rest of World). If you have any questions please visit http://www.researchandmarkets.com/contact/

Order Information
Please verify that the product information is correct.

Product Name: Patient Controlled Analgesia
Web Address: http://www.researchandmarkets.com/reports/3275100/
Office Code: SCBR9UCZ

Product Format
Please select the product format and quantity you require:

Quantity
Electronic (PDF) - Single User: USD 3850

Contact Information
Please enter all the information below in BLOCK CAPITALS

Title: Mr ☐ Mrs ☐ Dr ☐ Miss ☐ Ms ☐ Prof ☐
First Name: ____________________________________
Last Name: ____________________________________
Email Address: *
Job Title: ______________________________________
Organisation: __________________________________
Address: _____________________________________
City: __________________________________________
Postal / Zip Code: _______________________________
Country: _______________________________________
Phone Number: _________________________________
Fax Number: _________________________________
