Global Minimally Invasive Vertebral Compression Fracture (VCF) Repair Market 2015-2019

Description: About VCF

VCF is characterized by the collapse of one or more vertebral bodies, resulting in insistent and unbearable pain in patients. Osteoporosis, a degenerative bone disease, is the major cause of VCF among the elderly women. Metastatic spinal tumors, multiple myeloma, metastatic bone disease, and traumatic injuries are other causes of VCF. Individuals with VCF can undergo vertebroplasty and kyphoplasty to rectify the condition. Both procedures are minimally invasive and conducted on an outpatient basis. The use of two balloon devices makes kyphoplasty stand apart from vertebroplasty. The insertion and gradual inflation of these devices help restore the pre-facture shape and height of the vertebral bodies. Both these vertebral augmentation procedures lead to long-term maintenance of spinal bones injured by compression fractures, irrespective of their source. These procedures reduce pain in individuals, lessen the need for pain medications, decrease dependence on canes or other supporting devices, and help return to a relatively normal level of physical activity.

The analysts forecast the global minimally invasive vertebral compression fracture repair market to grow at a CAGR of 10.36% over the period 2015-2019.

Covered in this Report
This report covers the present scenario and the growth prospects of the global minimally invasive vertebral compression fracture repair market for the period 2015-2019. To calculate the market size, the report considers revenue generated through different types of minimally invasive procedures. The report presents the vendor landscape and a corresponding detailed analysis of the top six vendors in the market.

The report, Global Minimally Invasive Vertebral Compression Fracture Repair Market 2015-2019, has been prepared based on an in-depth market analysis with inputs from industry experts. It covers the market landscape and its growth prospects in the coming years. The report includes a discussion of the key vendors operating in this market.
