Adhesives & Sealants Market by Technology (Water, Solvent, Hot-Melt, Reactive & Others), by Chemistry (PAE, PVA, VAE, EVA, SBS, Synthetic Rubber, Polyamide, Polyurethane, Epoxy, Cyanoacrylate, & Others), & by Application - Global Forecast to 2020

Description:

The global adhesives & sealants market, along with its applications, has witnessed a high growth for the past few years and this growth is estimated to increase in the coming years. Some of the growth of adhesives in the disposable medical device market will result from improved processing methods and technology and not just new adhesive advancements. Application and curing equipment play a critical role in the design and manufacture of these devices. The aging population and advances in medical procedures will continue to fuel the growth of the adhesives & sealants in a host of areas, including drug-delivery systems, catheters, implants, and therapeutic devices.

The global market value of the adhesives & sealants is projected to reach $59.75 Billion by 2020, growing at a CAGR of 4.72% between 2015 and 2020.

Growth in the Asia Pacific region is expected to outpace that of both the US and Europe. Asia Pacific growth is forecast to be about 6.23% during the period as more manufacturing is shifted to that region, although much of the finished product will be manufactured for US and European markets.

This study basically aims to estimate the global market of adhesives & sealants for 2015 and to project its demand by 2020. This market research study provides a detailed qualitative and quantitative analysis of the global adhesives & sealants market. We have used various secondary sources such as directories, industry journals, and databases to identify and collect information useful for this extensive commercial study of the adhesives & sealants market.
