Global Cancer Vaccine Partnering 2010-2016: Deal trends, players, financials and forecasts

Description: The Global Cancer Vaccine Partnering 2010-2015 report provides an understanding and access to the cancer vaccine partnering deals and agreements entered into by the world's leading healthcare companies.

Trends in cancer vaccine partnering deals
Disclosed headlines, up front payments, milestones and royalties by stage of development
Cancer vaccine partnering contract documents
Top cancer vaccine deals by value

This report provides details of the latest Cancer Vaccine agreements announced in the life sciences since 2010.

The report takes the reader through a comprehensive review Cancer Vaccine deal trends, key players, top deal values, as well as deal financials, allowing the understanding of how, why and under what terms, companies are entering Cancer Vaccine partnering deals.

The report presents financial deal term values for Cancer Vaccine deals, listing by headline value, upfront payments, milestone payments and royalties, enabling readers to analyse and benchmark the financial value of deals.

The middle section of the report explores the leading dealmakers in the Cancer Vaccine partnering field; both the leading deal-values and most active Cancer Vaccine dealmaker companies are reported allowing the reader to see who is succeeding in this dynamic dealmaking market.

One of the key highlights of the report is that over 210 online deal records of actual Cancer Vaccine deals, as disclosed by the deal parties, are included towards the end of the report in a directory format - by company A-Z, stage of development, deal type, therapy focus, and technology type - that is easy to reference. Each deal record in the report links via Weblink to an online version of the deal.

In addition, where available, records include contract documents as submitted to the Securities Exchange Commission by companies and their partners. Whilst many companies will be seeking details of the payment clauses, the devil is in the detail in terms of how payments are triggered - contract documents provide this insight where press releases and databases do not.

The initial chapters of this report provide an orientation of Cancer Vaccine dealmaking. Chapter 1 provides an introduction to the report, whilst chapter 2 provides an overview of the trends in Cancer Vaccine dealmaking since 2010, including details of headline, upfront, milestone and royalty terms.

Chapter 3 provides a review of the leading Cancer Vaccine deals since 2010. Deals are listed by headline value. Where the deal has an agreement contract published at the SEC a link provides online access to the contract.

Chapter 4 provides a comprehensive listing of the top 25 most active companies in Cancer Vaccine dealmaking with a brief summary followed by a comprehensive listing of Cancer Vaccine deals announced by that company, as well as contract documents, where available.

Chapter 5 provides a comprehensive and detailed review of Cancer Vaccine partnering deals signed and announced since Jan 2010, where a contract document is available in the public domain. Each deal title links via Weblink to an online version of the deal record and contract document, providing easy access to each contract document on demand.

Chapter 6 provides a comprehensive and detailed review of Cancer Vaccine partnering deals signed and announced since Jan 2010. The chapter is organized by specific Cancer Vaccine technology type. Each deal title links via Weblink to an online version of the deal record and where available, the contract document, providing easy access to each deal on demand.
A comprehensive series of appendices is provided organized by Cancer Vaccine partnering company A-Z, stage of development, deal type, and therapy focus. Each deal title links via Weblink to an online version of the deal record and where available, the contract document, providing easy access to each deal on demand.

The report also includes numerous tables and figures that illustrate the trends and activities in Cancer Vaccine partnering and dealmaking since 2010.

In conclusion, this report provides everything a prospective dealmaker needs to know about partnering in the research, development and commercialization of Cancer Vaccine technologies and products.
