The Committee to Destroy the World. Inside the Plot to Unleash a Super Crash on the Global Economy. 2nd Edition

Description: Inside the plot to unleash a Super Crash on the global economy from the credit expert who predicted the last two collapses.

Praise for The Committee to Destroy the World

"In an era of books on the financial crisis, this one is a significant standout. A bold cry for reform from an outspoken writer who is not afraid to call things as he sees them."
LEON G. COOPERMAN, Chairman & CEO, Omega Advisors

"Michael has been helping investors navigate the boom and bust cycle of markets in his newsletter for years. He deals with the world as it is, not as we would like it to be, and he has done so here in his new book. So pour some coffee; put your feet up; read the book and be materially the wiser for having done so."
DENNIS GARTMAN, Publisher, The Gartman Letter

"Michael does an amazing job of laying bare the facts on what got us here and what continues to ail us."
PETER BOOCKVAR, Chief Market Analyst, The Lindsey Group

"Michael Lewitt has a front-row seat with which to watch the unmitigated disaster being brewed by central banks everywhere. He also has the rare gift to describe what he is seeing in clear terms and an amazing breadth of scores of factors that impinge on the world of economics and finance. When Michael writes, his work immediately goes to the top of my list."
JOHN MAULDIN, Chairman, Mauldin Economics

"Captures the zeitgeist of the era of easy money and fiscal inertia over the last decade. Through detailed research and provocative prose, the author explains how rationality wilted and was sedated."
DOUG KASS, President, Seabreeze Partners Management

"This sensational piece of research screams out 'forewarned is forearmed,' and even those who are faint of heart owe it to themselves to read it."
DAVID ROSENBERG, Chief Economist & Strategist, Gluskin Sheff
