Blackwell's Five-Minute Veterinary Consult. Canine and Feline. 6th Edition

Description: Like having a trusted clinician with you in the exam room, the fully updated Sixth Edition of Blackwell's Five–Minute Veterinary Consult: Canine and Feline continues to offer fast access to information in an easy-to-use format. Making it easy for you to find information when and where you need it, the book provides essential details on 846 diseases and conditions, with topics arranged alphabetically for quick searching. 379 top specialists have drawn on their expertise to deliver authoritative advice on managing conditions ranging from commonplace to rare.

A companion website supplies 354 client education handouts for you to download, edit, and use in practice. This thoroughly updated new edition is an essential resource for veterinarians of any experience level, allowing you to study, diagnose, and treat dogs and cats more efficiently and effectively.

Key features

- Provides fast access to key information on the diagnosis and treatment of diseases and conditions in dogs and cats
- Covers 846 specific disorders, making it the most comprehensive quick-reference book on canine and feline medicine
- Carefully designed for fast searching and reference in the busy practice setting, giving you the confidence to make clinical decisions quickly and appropriately
- Presents contributions from 379 leading experts specializing in all areas of veterinary medicine
- Includes access to a companion website with 354 client education handouts for you to download and use in practice, plus images and video clips
