Waterproofing Membrane Market by Type (Modified Bitumen, PVC, TPO, EPDM, HDPE, LDPE), by Application (Roofing & Walls, Building Structures, Waste & Water Management, Tunnel Liners, Bridges & Highways), by region - Trends & forecasts to 2020

Description: Roofing membranes and geomembranes are the two major waterproofing membranes which are used globally for various applications including roofing & walls, building structures, waste & water management, and tunnel liners. Roofing membranes such as modified bitumen, TPO, PVC, and EPDM are used globally in roofing & walls and building structure for waterproofing and other applications. Geomembranes such as HDPE, LPDE, and EVA are used globally for various applications including solid and liquid waste management, waste water treatment, mining, and tunnel liners. Growth in the building & construction industry in emerging nations like China and India is expected to drive the major waterproofing membrane market in next five years. Continuous research and development (R&D) efforts and associated technological breakthroughs in the area of cost-effective production & processing fueled its market growth in the last decade which is expected to continue in the near future.

This study estimates the global market of waterproofing membranes by the end of 2020. This market research study provides detailed qualitative and quantitative analysis of the global waterproofing membrane market. The report provides a comprehensive review of major market drivers, restraints, opportunities, winning imperatives, challenges, and key issues in the market. The market is further segmented and forecasted for major geographic regions, North America, Europe, Asia-Pacific and Rest of the World (RoW). The major countries with the market sizes in terms of volume and value are covered for each of the regions. The competitive scenario and market share of the top players in the market has been discussed in detail. The top players of the industry are profiled in detail with their recent developments and other strategic industry activities.

Various secondary sources such as encyclopedia, directories, and databases have been used to identify and collect information useful for this extensive commercial study of waterproofing membranes. The primary sources - selected experts from related industries and selected suppliers have been interviewed to obtain and verify critical information as well as to assess the prospects of waterproofing membranes.

Leading players of this industry have also been profiled with their recent developments and other strategic industry activities. Key participants in the global waterproofing membrane market include Carlisle Companies Inc. (U.S.), Firestone Building Products Company, LLC (U.S.), Soprema Group (France), GSE Environmental (U.S.), BASF SE (Germany), The Dow Chemical Company (U.S.), Johns Manville (U.S.), Sika AG (Switzerland), GAF Materials Corporation (U.S.), among others.

Scope of the Report

This research report categorizes the global market for waterproofing membranes on the basis of type, applications, and region; forecasts market sizes in terms of volume and value and analyzes trends in each of the submarkets.

On the basis of applications: The major applications for waterproofing membranes such roofing & walls, building structures, waste & water management, tunnel liners, bridges & highways, among others have been discussed in detail in the report. Each application is further described in detail in the report with market sizes in terms of volume and value forecasted for each application.

On the basis of region: North America, Europe, Asia-Pacific, and RoW and key countries in every region.

Contents: 1 Introduction
1.1 Objectives of the study
1.2 Market definition
1.3 Market scope
9.4.3 Others

10 Competitive Landscape
10.1 Overview
10.2 Competitive Situation & Trends
10.3 Competitive strategies
  10.3.1 Mergers & acquisitions
  10.3.2 New product launches
  10.3.3 Agreements & collaborations
  10.3.4 Strategic expansions
10.4 Market development share analysis

11 Company Profiles
  11.1 Carlisle Companies Inc.
  11.2 The Dow Chemical Company
  11.3 Firestone Building Products Company, LLC
  11.4 Soprema Group
  11.5 Sika AG
  11.6 Johns Manville
  11.7 Renolit SE
  11.8 GSE Environmental
  11.9 GAF Materials Corporation
  11.10 Juta A.S.
  11.11 W.R. Grace & Co

Ordering:
Order by Fax - using the form below
Order by Post - print the order form below and send to

Research and Markets,
Guinness Centre,
Taylors Lane,
Dublin 8,
Ireland.
Fax Order Form
To place an order via fax simply print this form, fill in the information below and fax the completed form to 646-607-1907 (from USA) or +353-1-481-1716 (from Rest of World). If you have any questions please visit
http://www.researchandmarkets.com/contact/

Order Information
Please verify that the product information is correct and select the format(s) you require.

Product Name: Waterproofing Membrane Market by Type (Modified Bitumen, PVC, TPO, EPDM, HDPE, LDPE), by Application (Roofing & Walls, Building Structures, Waste & Water Management, Tunnel Liners, Bridges & Highways), by region - Trends & forecasts to 2020
Web Address: http://www.researchandmarkets.com/reports/3329337/
Office Code: SC

Product Formats
Please select the product formats and quantity you require:

<table>
<thead>

Payment Information

Please indicate the payment method you would like to use by selecting the appropriate box.

☐ Pay by credit card: You will receive an email with a link to a secure webpage to enter your credit card details.

☐ Pay by check: Please post the check, accompanied by this form, to:
Research and Markets,
Guinness Center,
Taylors Lane,
Dublin 8,
Ireland.

☐ Pay by wire transfer: Please transfer funds to:

- **Account number**: 833 130 83
- **Sort code**: 98-53-30
- **Swift code**: ULSBIE2D
- **IBAN number**: IE78ULSB98533083313083
- **Bank Address**: Ulster Bank,
27-35 Main Street,
Blackrock,
Co. Dublin,
Ireland.
