Mobile Crane Market in China 2015-2019

About Mobile Crane Market in China
Mobile cranes are used to lift and transport different types of loads at construction sites. They are mounted on a rubber tire or crawler carrier and powered by electric motors or internal combustion engines. The mobile crane market is part of the rapidly growing construction equipment market in China. The increased focus on improving the quality of infrastructure in the country coupled with rapid urbanization has led to a rise in the number of construction projects. This has generated positive demand for mobile cranes in China.

The analysts forecast the mobile crane market in China to grow at a CAGR of 17.03% over the period 2014-2019.
