Energy and Utilities Infrastructure Construction in Bahrain to 2019: Market Forecast

Description: 'Energy and Utilities Infrastructure Construction in Bahrain to 2019: Market Forecast' contains detailed historic and forecast market value data for the energy and utilities infrastructure construction industry, including a breakdown of the data by construction activity (new construction, repair and maintenance, refurbishment and demolition). The databook provides historical and forecast valuations of the industry using the construction output and value-add methods.

Summary
This report is the result of extensive market research covering the energy and utilities infrastructure construction industry in Bahrain. It contains detailed historic and forecast market value data for the energy and utilities infrastructure construction industry, including a breakdown of the data by construction activity (new construction, repair and maintenance, refurbishment and demolition). 'Energy and Utilities Infrastructure Construction in Bahrain to 2019: Market Forecast' provides a top-level overview and detailed insight into the operating environment of the energy and utilities infrastructure construction industry in Bahrain. It is an essential tool for companies active across the Bahraini construction value chain and for new players considering to enter the market.

Scope
- Overview of the energy and utilities infrastructure construction industry in Bahrain.
- Historic and forecast market value for the energy and utilities infrastructure construction industry by construction output and value-add methods for the period 2010 through to 2019.
- Historic and forecast market value by construction activity (new construction, repair and maintenance, refurbishment and demolition) across the energy and utilities infrastructure construction industry for the period 2010 through to 2019.

Reasons To Buy
- This report provides you with valuable data for the energy and utilities infrastructure construction industry in Bahrain.
- This report provides you with a breakdown of market value by type of construction activity (new construction, repair and maintenance, refurbishment and demolition).
- This report enhances your knowledge of the market with key figures detailing market values using the construction output and value add methods.
- This report allows you to plan future business decisions using the forecast figures given for the market.

Contents:
1 INTRODUCTION
1.1 What is this Report About?
1.2 Definitions
1.3 Summary Methodology
2 ENERGY AND UTILITIES INFRASTRUCTURE CONSTRUCTION: CATEGORY DATA
2.1 Energy and Utilities Infrastructure Construction Output: Historic Market Value
2.2 Energy and Utilities Infrastructure Construction Output: Historic Market Value by Cost Type
2.3 Energy and Utilities Infrastructure Construction Output: Forecast Market Value
2.4 Energy and Utilities Infrastructure Construction Output: Forecast Market Value by Cost Type
2.5 Energy and Utilities Infrastructure Construction Value Add: Historic Market Value
2.6 Energy and Utilities Infrastructure Construction Value Add: Forecast Market Value
3 ENERGY AND UTILITIES INFRASTRUCTURE CONSTRUCTION: ACTIVITY ANALYSIS
3.1 New Construction Output
3.2 New Construction Output by Cost Type
3.3 New Construction Output Forecast
8.21 Demolition Output Forecast
8.22 Demolition Output Forecast by Cost Type
9 APPENDIX
9.1 About
9.2 Our Services
9.3 Disclaimer
