
Description: The Manual of Commercial Methods in Clinical Microbiology 2nd Edition, International Edition reviews in detail the current state of the art in each of the disciplines of clinical microbiology, and reviews the sensitivities, specificities and predictive values, and subsequently the effectiveness, of commercially available methods—both manual and automated. This text allows the user to easily summarize the available methods in any particular field, or for a specific pathogen—for example, what to use for an Influenza test, a Legionella test, or what instrument to use for identification or for an antibiotic susceptibility test.

The Manual of Commercial Methods in Clinical Microbiology, 2nd Edition, International Edition presents a wealth of relevant information to clinical pathologists, directors and supervisors of clinical microbiology, infectious disease physicians, point-of-care laboratories, professionals using industrial applications of diagnostic microbiology and other healthcare providers. The content will allow professionals to analyze all commercially available methods to determine which works best in their particular laboratory, hospital, clinic, or setting.

Contents:

Important Notice, xiii
Preface to the Second Edition, xiv

Foreword, xvi

Acknowledgments, xvii

Rising Sun Chair, xviii

Contributors, xix

1 Role of the US Food and Drug Administration in the Regulation of Clinical Microbiology Devices, 1
Kathleen B. Whitaker, Sally A. Hojvat, and Estelle Russek-Cohen

1.1 Historical overview of in vitro diagnostics, 1

1.2 Current microbiology device review regulatory pathways: practical considerations, 2

1.3 Assay performance characteristics: Statistics 101 for diagnostic device developers, 7

1.4 Common issues with new FDA submissions, 8

References, 10

2 Commercial Blood Culture Systems and Methods, 11
Michael L. Wilson, Melvin P. Weinstein, and L. Barth Reller

2.2 Automated blood culture systems, 12

2.3 Molecular and other methods, 18

2.4 Future directions, 19

References, 19
14.1 Introduction, 273
14.2 Specimen processing, 273
14.3 Acid-fast staining reagents, 273
14.4 Direct detection of mycobacteria from clinical specimens, 274
14.5 Blood-culture recovery of mycobacteria, 275
14.6 Mycobacteria-culturing methods and systems, 276
14.7 Identification of mycobacteria, 278
14.8 Susceptibility tests for mycobacteria, 280
14.9 Immunodiagnosis of tuberculosis, 281
14.10 Conclusion, 281

References, 281

15 Diagnostic Medical Parasitology, 284
Lynne S. Garcia and Gary W. Procop
15.1 Diagnostic parasitology testing, 284
15.2 Solicitation of product information, 287
15.3 Specimen collection systems, 287
15.4 Fresh stool specimen collection, 287
15.5 Preservation of stool specimens, 289
15.6 Intestinal tract specimens (stool), 294
15.7 Ova and parasite examination, 297
15.8 Molecular methods, 297
15.9 Other diagnostic methods, 303
15.10 Collection of specimens from other body sites, 303
15.11 Blood collection, 303
15.12 Malaria rapid diagnostic tests, 305

References, 307

16 Molecular Microbiology, 309
Raghava Potula and Yi-Wei Tang
16.1 Introduction, 309
16.2 Specimen processing and nucleic acid extraction platforms, 309
16.3 Amplification methods and platforms, 310
16.4 Amplicon detection and identification platforms, 313
20.7 Cases, 383
20.8 Management of the laboratory information system, 384
20.9 Personnel management, 384
References, 385
21 Emerging Infectious Diseases, 386
Brett Laurence, Julie Collins, Carolyn Fernandes, Rafik Samuel, and Byungse Suh
21.1 Introduction, 386
21.2 Plasmodium knowlesi, 386
21.3 Clostridium difficile, 389
21.4 Pandemic H1N1 influenza, 391
21.5 Escherichia coli O104:H4, 393
21.6 Cryptococcus gattii, 394
21.7 Borrelia miyamotoi, 396
21.8 Rickettsia parkeri, 397
21.9 Mycobacterium lepromatosis, 398
21.10 Bocavirus, 400
21.11 Human metapneumovirus, 400
21.12 Severe fever with thrombocytopenia syndrome virus, 402
21.13 Zika virus, 403
References, 404
22 Automated and Manual Systems for Antimicrobial Susceptibility Testing of Bacteria, 414
Alan T. Evangelista and James A. Karlowsky
22.1 Introduction, 414
22.2 Evaluation of commercial AST performance, 415
22.3 Automated broth microdilution AST systems, 415
22.4 Semiautomated and manual broth microdilution AST systems, 422
22.5 Manual and semiautomated agar antimicrobial gradient diffusion and disk diffusion susceptibility tests, 423
22.6 Phenotypic detection of antimicrobial resistance using chromogenic media, 425
22.7 Genotypic detection of antimicrobial resistance determinants in positive blood cultures, 427
22.8 Next generation methods for antimicrobial susceptibility testing, 428
References, 430
23 Bioterrorism, 433
32 Clinical Microbiology In Vitro Diagnostics in Japan: Regulatory Requirements and Product Information, 525
Koji Kawakami and Yukie Yamauchi

32.1 The regulatory structure of pharmaceuticals and clinical trials in Japan, 525
32.2 The regulatory structure of in vitro diagnostic testing in Japan, 525
32.3 Marketing of IVD reagents in Japan, 526
32.4 Clinical efficiency study/correlation study, 527
32.5 Marketing approval, 530
32.6 National Health Insurance coverage of IVD reagents, 530
Bibliography, 530

33 Clinical Microbiology In Vitro Diagnostic Medical Devices in the Republic of Korea: Regulatory Requirements and Product Information, 531
Jeong Hwan Shin

Bibliography, 534

34 Clinical Microbiology In Vitro Diagnostic Medical Devices in South Africa: Regulatory Requirements and Product Information, 535
Abdool Kader Peer

34.1 Regulatory requirements, 535
34.2 Product information, 536
Reference, 536

35 Clinical Microbiology In Vitro Diagnostic Medical Devices in the UK: Regulatory Requirements and Product Information, 537
Timothy D. McHugh, Jim F. Huggett, and Simon Rattenbury

35.1 Background, 537
35.2 Definitions, 537
35.3 Conformity assessment, 545
35.4 Other considerations, 545
Bibliography, 545

Appendix: Manufacturers, Distributors and Vendors, 546
Raquel DeLeon-Gonsalves and Allan L. Truant

Index, 581
Guinness Centre, 
Taylors Lane, 
Dublin 8, 
Ireland.
Fax Order Form
To place an order via fax simply print this form, fill in the information below and fax the completed form to 646-607-1907 (from USA) or +353-1-481-1716 (from Rest of World). If you have any questions please visit http://www.researchandmarkets.com/contact/

Order Information
Please verify that the product information is correct.

Payment Information

Please indicate the payment method you would like to use by selecting the appropriate box.

☐ Pay by credit card: You will receive an email with a link to a secure webpage to enter your credit card details.

☐ Pay by check: Please post the check, accompanied by this form, to:
Research and Markets,
Guinness Center,
Taylors Lane,
Dublin 8,
Ireland.

☐ Pay by wire transfer: Please transfer funds to:
Account number 833 130 83
Sort code 98-53-30
Swift code ULSBIE2D
IBAN number IE78ULSB98533083313083
Bank Address Ulster Bank,
27-35 Main Street,
Blackrock,
Co. Dublin,
Ireland.
