Vietnam Power Market Outlook to 2025, Update 2015 - Market Trends, Regulations, and Competitive Landscape

Description: Vietnam Power Market Outlook to 2025, Update 2015 - Market Trends, Regulations, and Competitive Landscape

Summary

This report elaborates Vietnam's power market structure and provides historical and forecast numbers for generation, capacity and consumption up to 2025. Detailed analysis of the Vietnamese power market's regulatory structure, import and export trends, competitive landscape and power projects at various stages of the supply chain is provided. The report also gives a snapshot of the power sector in Vietnam on broad parameters of macroeconomics, supply security, generation infrastructure, transmission infrastructure, degree of competition, regulatory scenario and future potential. Financial performance of the leading power companies is also analyzed in the report.

Scope

- Snapshot of the country's power sector across parameters - macro economics, supply security, generation infrastructure, transmission infrastructure, degree of competition, regulatory scenario and future potential of the power sector.
- Statistics for installed capacity, power generation and consumption from 2000 to 2014, forecast for the next 11 years to 2025.
- Break-up by technology, including thermal, hydro, renewable and nuclear
- Data on leading current and upcoming projects.
- Information on grid interconnectivity, transmission and distribution infrastructure and power exports and imports.
- Policy and regulatory framework governing the market.
- Detailed analysis of top market participant, including market share analysis and SWOT analysis.
