Global Advanced Distribution Management System Market 2015-2019

Description: About Advanced Distribution Management System
An advanced distribution management system is a combination of DMS, SCADA, and OMS along with the control room applications on a single, secure platform having a single user interface. This system basically works in combination with the GIS, the utility’s CIS, and IVR system. The system is specifically designed to reduce the financial impact of a power blackout. With the help of this system, power utilities are able to monitor and control the distribution network, thereby enhancing the quality of their services. It also helps in providing a real-time analysis of the operational condition of a power network and provides self-healing capabilities. Ultimately, the advanced distribution management system helps in the proper management of increasing energy consumption, surging energy cost, and power system network instability due to aging.

The analysts forecast the global advanced distribution management system market to grow at a CAGR of 17.1% over the period 2014-2019.

Covered in this Report
The report covers the present scenario and the growth prospects of the global advanced distribution management system market for the period 2015-2019. The report includes the segmentation of the market based on components as well as geography.

The report, Global Advanced Distribution Management System Market 2015-2019, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects in the coming years. The report includes a discussion of the key vendors operating in this market.

Key Vendors
- ABB
- Alstom
- GE Digital Energy
- Schneider
- Siemens

Other Prominent Vendors
- Advanced Control Systems
- Capgemini
- S&C Electric

Market Driver
- Complexity of Standalone Outage Management Systems
  - For a full, detailed list, view our report

Market Challenge
- Reluctance of Power Utilities to Upgrade Power Grids
  - For a full, detailed list, view our report

Market Trend
- Integration of Advanced Smart Grid Technologies
